SPRING 1959 GARDEN GUIDE

ESTABLISHED 1880

U. S. National Arboretum

726

Sensational *MORAINÉ LOCUST

**An Outstanding Shade Tree
of Unusual Character**

*Trade Mark (Plant Pat. No. 836)

We are proud to offer this sensational shade tree, because we believe it so perfectly fills the needs of today. It will provide good shade quicker than any tree we know of.

The Moraine Locust is hardy, drought-resistant and grows successfully on a wide range of soils. Because it is sterile, there are no unsightly seed pods to clutter up the lawn. It is also thornless.

Vase formed in shape, wide spreading when older, like stately old Elm trees. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage growth of crab grass.

Easily transplanted and will produce good growth on any kind of soil.

Try a planting this spring. Grows to a height of 25 to 40 ft.

\$7.50
6-8 Ft. Each

5-6 Ft. Each

**A Magnificent Lawn Tree that Adds
that "Bit of Grandeur" to Every Garden**

CRIMSON KING MAPLE

*The Aristocrat of
Ornamental and Shade Trees*

(Plant Patent No. 735)

You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months. Crimson King keeps its rich coloring throughout the season. It has been said, "Crimson King is beautiful beyond words." Grows 25-40 feet tall.

Pink Cascade

Pepper Bush

Cardinal Shrub

Be a Connoisseur! Plant These Unusual Shrubs

PINK CASCADE

(Patent No. 1275)

Resembles Large Morning Glory

It mirrors a Morning Glory to perfection with a few added beauty notes of its own. The picture can't do justice to the subtle beauty of this plant. The foliage is a delicate silvery blue, interlaced with the lovely pink blossoms that flow like a living cascade everywhere. A feathery type of the lacy Tamarix, it is one of the finest of the flowering shrubs. For best results with this beauty cut back to 6 inches at planting—you'll have true, full beauty all season.

Firethorn - PYRACANTHA

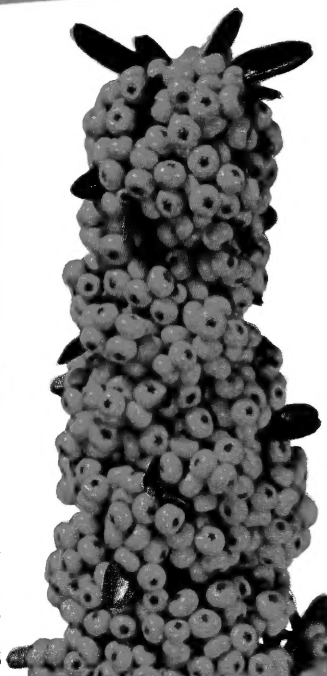

(Coccinea Lalandi)

Lovely Decorative Berries

A remarkable berried shrub that retains its foliage all winter, attractive long trusses of pure white flowers are only a prelude to the big show. An abundance of brilliant orange-scarlet berries follow the bloom and the bush becomes a "mound of flame" with the effect lasting well into winter. Blooms in May. Grows 4-6 ft.

	Each	2 for
2-yr.	\$2.25	\$4.35

Postpaid

Firethorn, Pyracantha

PEPPER BUSH

(Clethra Alnifolia Rosca)

Finger-like clusters of small, deliciously scented pink flowers—vaguely spicy—reminiscent of pepper. A compact, neat plant of dozens of slender upright branches growing 4 to 5 feet tall. Here is the rare luscious pink form of the much loved white Pepper Bush, giving bloom when most needed to bestir the gloom, in late summer and early autumn. Leaves are shining deep green, 2-3 inches long, and resemble the Alder with their toothed sides. A truly fine, useful shrub, especially good for those low moist garden spots most nearly approximating a damp woodland condition. Will give you beauty in deep shade or the brightest sun.

CARDINAL SHRUB

(Weigela Vaniceki)

Blooms Spring and Autumn

Literally covered from top to bottom with hundreds of lovely rosy red flowers. Each blossom is trumpet-shaped, 1 to 1½ inches across, and they bloom from May to June. During the balance of the season there are scattered blossoms that show as glowing sparks against the deep green foliage. We suggest that you use sprays for bouquets since this lovely plant will flower more profusely as they are clipped.

A new shrub, it has fast become the most widely planted shrub in America. Its beauty alone could account for its popularity, but in addition it is extremely easy to grow, and thrives at every point of the compass—blooming in the spring, summer and fall. Lives happily in full sun or partial shade. The excellent foliage makes a shapely, graceful bush approximately 6 feet tall. One of the best hardy new shrubs, it has withstood 15 below zero cold without injury. If planted this spring it will definitely bloom this season. You'll like this lovely plant. It will compliment your taste and your home.

Strong, Vigorous Shrubs

FREE GIFTS for EARLY ORDERS!

This Offer Good on Orders Received
on or Before MARCH 4, 1959

As an added inducement to send us your order early so we can give it our best attention, we offer the following FREE PREMIUMS:

With every order of \$5.00 you may select any one of the 8 premiums we list.

With every order of \$10.00, you may select 2 premiums, alike or different.

With each additional \$5.00, you may select 1 more premium.

- 1 Rose Bush (your choice of color). (No patented varieties). Value \$1.35.
- 1 Peony Root (your choice of variety). Value \$1.15.
- 5 Latham Red Raspberries. Value \$1.50.

2 Concord Grape Vines. Value \$1.50.

1 Hydrangea P. G. Bush. Value \$1.00.

2 Spirea Van Houttei. Value \$1.50.

1 Sweet Honeysuckle Shrub. Value \$1.00.

3 Phlox (our choice—all different). Value \$1.35.

The Premiums you select MUST BE WRITTEN ON THE ORDER, or none will be sent, even if you notify us later.

NOTE: Premiums Allowed Only on Orders Accompanied with Full Remittance. No Premiums Allowed on C.O.D. Orders.

RA-PID-GRO

The MIRACLE PLANT FOOD

1 pound of Ra-Pid-Gro added to 22 gals. of water gives you a complete, quickly available, easily prepared plant food. Analysis: 23% Nitrogen, 21% Phosphate, 17% Potash.

WHAT WILL IT DO?

Ra-Pid-Gro works almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreen shrubs, Roses, perennials, vegetables and house plants. All the vital plant food elements are present in this remarkable discovery and, since it is applied in liquid form, are readily available to the roots of the plant.

WHAT IS RA-PID-GRO?

Ra-Pid-Gro is a complete concentrated plant food. It is made into an immediately available, effective liquid fertilizer by simply adding water. It speeds up growth of plants now in place, and assures more successful transplanting of new plants.

HOW IS IT USED?

Just add water at the rate of 1 lb. of Ra-Pid-Gro to 22 gallons of water. It is ready to use as soon as the Ra-Pid-Gro dissolves. Apply around each plant according to directions on the package. For a small number of plants mix at the rate of 1 teaspoon to a quart of water.

PRICES

1 lb. Ra-Pid-Gro (Makes 22 gals.)	\$ 1.30
2 lbs. Ra-Pid-Gro (Makes 44 gals.)	2.50
5 lbs. Ra-Pid-Gro (makes 110 gals.)	4.75
10 lbs. Ra-Pid-Gro (makes 220 gals.)	9.00
25 lbs. Ra-Pid-Gro (makes 550 gals.)	21.00

FAMOUS FOR QUALITY NURSERY STOCK FOR OVER 79 YEARS

HOW TO ORDER

PLEASE READ BEFORE ORDERING YOUR SELECTIONS

1. Order now for shipment at planting time.
2. Unless you specify date, we will ship at the proper planting time in your section.
3. An envelope and order blank are enclosed for your convenience.
4. For ordering, please use order blanks enclosed. Letters should be written separately to avoid confusion and mistakes, and to insure prompt reply.
5. Our terms are cash with order. C.O.D. orders accepted only when 25 per cent deposit accompanies the order.
On C.O.D. orders the customer pays all transportation charges.

HOW TO REMIT

Send Money Order or Check with your order. You save money by sending remittance with order. The Post Office and Express Company make extra charges for C.O.D. shipments.

QUANTITY RATES

Take advantage of our lower rates for Quantity Purchases of Fruit Trees. Where we offer a 3 for and a 10 for rate, they do not have to be of the same variety. In other words, if you were ordering 3 Peach Trees, one each of 3 different varieties, you would be entitled to the 3 rate. Or, if you ordered an assortment of 10 different varieties of Peach Trees, you would be entitled to the 10 rate. We are one of the largest growers of Fruit Trees in the country. Commercial Fruit Growers are invited to send for our Quantity Fruit Tree Price List, or to submit their list of wants for special quotations.

FREE PLANTING GUIDE

With every order we will send FREE a book which, by word or picture, shows just how to plant a tree or shrub.

OUR REFERENCES

As to our responsibility and reliability, we refer you to the Genesee Valley Union Trust Co., Dansville, N. Y.; Groveland State Bank, Groveland, N. Y.; Security Trust Co., Dansville, N. Y.; to any person whose letter appears in this catalog, or to your State Experiment Station or College.

Our Guarantee

We positively GUARANTEE any nursery stock you buy from this catalog to grow, providing you follow our Planting Instructions, and give the plants normal care. If any tree, bush or plant from our nursery does not grow, we will replace it ABSOLUTELY FREE the next growing season. On all replacement orders, you will be billed for the shipping charges. Our Guarantee covers normal losses, but unusual losses due to conditions beyond our control, we will adjust in a satisfactory manner with the customer. All we ask is that you follow instructions mailed with your order acknowledgement, and give the plants good care. Report on losses to reach us ON OR BEFORE AUGUST 1st, FOLLOWING PLANTING. Send original order to us when requesting a replacement.

We ship only STRONG, HEALTHY STOCK OF THE BEST QUALITY. That is why we can make such an iron-clad GUARANTEE.

WE PAY POSTAGE

Most plants listed in the catalog are delivered to your home postpaid.

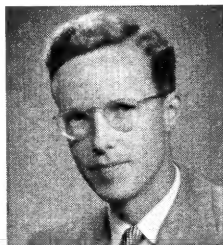

Trees too large for parcel post shipment are sent by express—you pay the charges.

Where there is a mixed order of postpaid and express items, we ship the whole order express, prepaying in advance, our portion of the charges.

ABOUT OUR NURSERY

We only wish it were possible for us to meet all of our hundreds of thousands of customers in person. This being impossible, we take this means of telling you briefly about our big nursery.

From a small beginning in 1880, we have grown to become one of the largest nurseries in the country, shipping millions of plants to all parts of the U.S.A. each year.

IDEAL LOCATION

Located here in the famous Genesee Valley of New York State, ideal soil and climatic conditions make it possible for us to grow the finest nursery stock obtainable.

MODERN BUILDINGS

With our refrigerated cold storage plants, we are able to maintain in perfect condition the trees and plants, making it possible for us to ship from early October until early June.

METHOD OF SHIPMENT

Strawberry Plants, Perennials and Supplies are shipped separate from nursery stock. We will ship your order at the proper time for planting in your section. If, however, for some reason you wish to have your order shipped on a particular date, please, carefully note this information on your order blank.

NEW PACKING METHODS

With the advantage of new packing methods, we are now using Polyethylene Coated Kraft paper, which easily retains moisture, but still allows the plants to breathe. Research and experience has shown us that this method insures safe arrival of nursery stock, and makes it possible to ship without moss or other heavy packing material.

When your shipment arrives, if you can't plant it immediately, leave it in the bundle in a cool place just as it arrives, until you can plant.

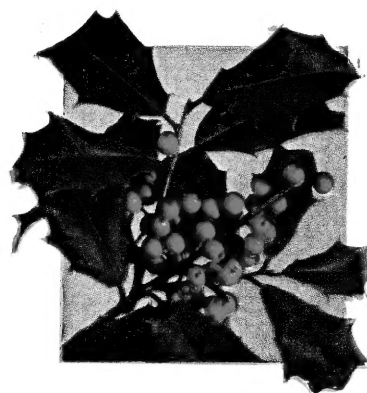

OUR INTEREST CONTINUES

Our interest does not cease when you place your business with us. We take great pains to deliver nursery stock in A-1 condition, and know that if you will follow the planting instructions sent with each order, you will have excellent success with all of the trees and plants purchased from us.

YOUR VISITS ARE WELCOME

Those of our customers who are in driving distance of Dansville, we would like to meet personally. We are open during the spring season, starting the middle of March, on Saturdays and Sundays. Visitors are welcome at any time.

Garden Trophies

Christmas Holly **ILEX OPACA**

By far the most famous of the Holly family, the AMERICAN HOLLY was once commonly found in most all wooded areas of the East.

Either by cutting, burning or from an attack of bugs and disease it has all but disappeared, except for certain areas along the Eastern seaboard.

By selection and breeding, Holly experts have succeeded in propagating varieties that are **HARDY AND COMPARATIVELY FREE FROM DISEASE** and insect attacks.

We now have a quantity of this most unusual plant, which we are offering. The plants we have, have been selected for their early and **HEAVY FRUITING CHARACTERISTICS**. They have been found **HARDY** for several years in the **BUFFALO, NEW YORK** area and in New England.

The trees are likely to do better where they are protected from strong winter winds and where they get some shade. A **FERTILE, WELL DRAINED SOIL, ON THE ACID SIDE, IS PREFERRED**. The use of leaf mold and peat moss in planting and as a mulch is recommended. A special Holly fertilizer is listed below.

Although the tree will grow 30 to 40 ft. tall at maturity, it looks best when kept trimmed to a compact size of 4 to 8 ft.

EVERGREEN IN ITS NATURE, with the heavy crop of **ATTRACTIVE BRIGHT RED BERRIES** during the winter, as an accent plant in strategic corners, flanking walks or front entrances, it is in a class by itself. It is invaluable for planting in areas fairly close to the house.

Because the female and male flower are produced on separate plants, at least 2 **PLANTS MUST BE PLANTED**. Because the pollen from 1 male plant will pollinate the blossoms of from 2 to 10 female plants, we offer a combination of 2 female and 1 male plant in one package.

Special Holly Culture Booklet sent Free with each order.

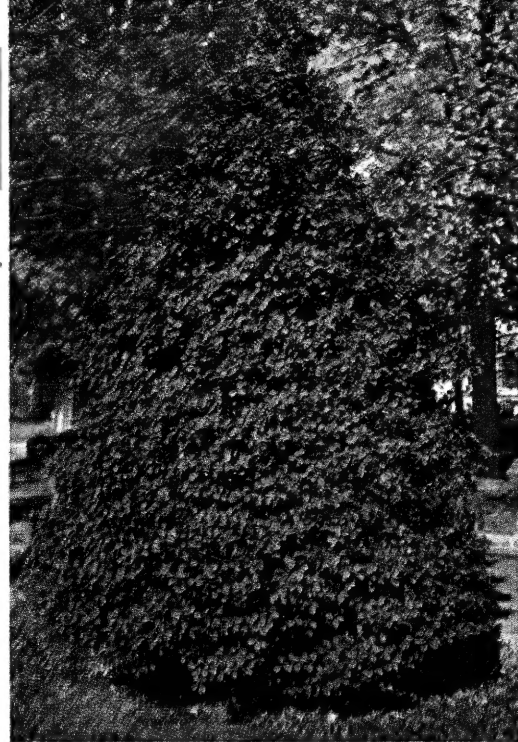

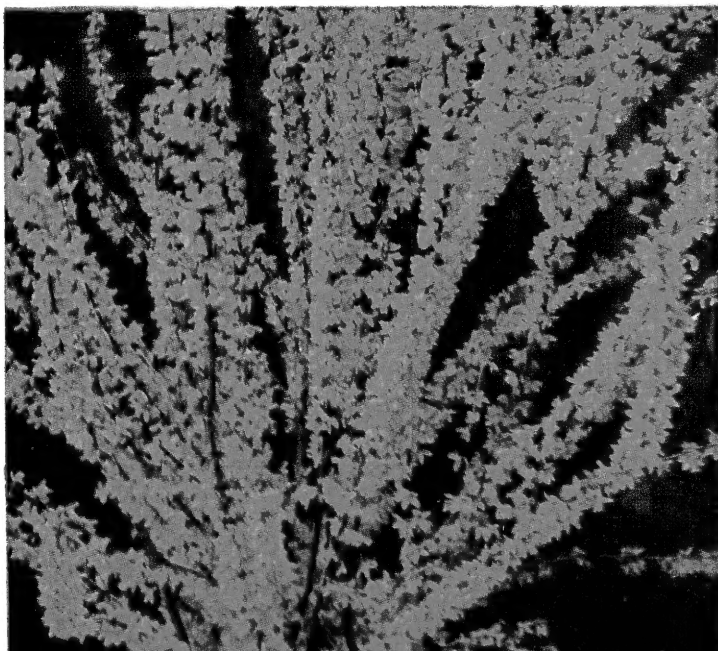

All 3, 9-15 in., 3-yr. plants, only \$5.95, postpaid.

FORSYTHIA, Lynwood Gold

This splendid new Forsythia originated in Ireland, and we predict it will replace, before many years, all other varieties of deep yellow color. The branches are erect and literally smothered under golden yellow flowers from top to bottom. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years, and we recommend it without hesitation. Ultimate height 5 to 7 feet, depending on conditions.

DAWN REDWOOD

(Metasequoia Glyptostroboides)

A **MOST UNUSUAL TREE**, recently introduced in America, or more correctly, reintroduced, as fossils from Elko, Nevada, show that this tree existed in North America a great many years ago.

In 1941 a Japanese paleobotanist described Metasequoia from fossil specimens at a time when the tree was believed to be extinct. Three years later, several large specimens were discovered growing in a remote village in Central China. Shortly after this discovery Dr. E. D. Merrill of the Arnold Arboretum, Harvard University, contacted Dr. W. C. Cheng, a Chinese Forester at Nanking and arranged for seeds to be sent to him for propagation.

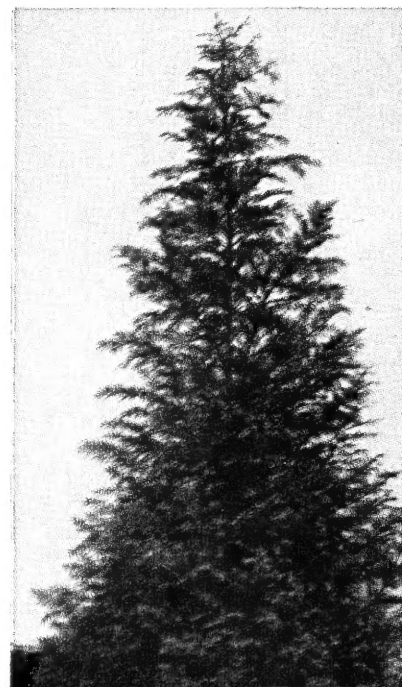

The seedlings vary greatly in their growth, some attaining as much as 4 feet of growth in one summer, but others about half as much. A seven-year-old specimen in Northampton, Mass., is already 20 feet tall.

This tree grows in open or half shaded locations, but seems to thrive best when planted along streams or close to abundant water supply. It is hardy throughout the country, and appears to have no special soil preference.

The foliage is deciduous, bright apple-green, and about one-half inch long. It is a cone-bearing tree, resembling the Bald Cypress of the southern swamps. Cones are freely produced on 8 to 10-year-old trees, globose, mostly about 1 inch across.

More or less pyramidal in shape. Not an evergreen. A valuable new introduction.

THE EXOTIC BLUE MIST SHRUB
(Caryopteris)

A true blue, shimmering, compact, rounded bush about 2 feet tall with exotic silvery green foliage. The perfect foil to complement your other plants without losing its own identity. From August to frost it is covered with many clusters of dainty blue flowers. Roots are hardy, allowing you to trim off the old canes each spring, making room for new shoots that give you one of the best low-growing, fall-blooming shrubs on the market. A shrub calculated to win every flower connoisseur's admiration. **Each 2 for**
..... \$1.25 2.25

Pink Flowering ALMOND

You can almost hear the rustle of a crinoline skirt when you see this old-time, long-time favorite. And it's smart to add the charm of an old-fashioned early spring flowering shrub to even your most sophisticated settings. Shades of southern belles, it's an eye stopper when covered completely with very double, vivid pink blossoms which appear in great clusters before the tiny satin-green leaves unfold.

BLUE HYDRANGEA

Cool, lovely blue blossoms throughout the entire summer. Large green leaves point up the blue of the blossom. The more acid the soil the deeper blue the color. Maintain soil acidity by mixing 4 to 5 tablespoons of aluminum sulphate to a gallon of water and apply to soil for two or three weeks during the growing season. Mound earth up around plant for winter protection. Grows in partial or full shade.

height —

These shrubs are ideal for planting on the corners, between windows and as a background shrub with those listed on pages 6 and 7.

ROSA HUGONIS - Father Hugo Rose

A Colorful Protective Shrub — Good for Hedging

China named this often-called Golden Rose after Father Hugo, who discovered it in China. The 4 to 5 ft. bushes are a mound of gold early in May with their bright yellow blossoms that bloom ahead of other Roses, thus making them more attractive. It is truly a lovely addition to the garden because of its admirable early flowers, its clean, fresh foliage and its charming arching habit. May be planted as a shrub border, hedge or as specimens.

HYPERICUM HIDCOTE

**This Beautiful Hardy Shrub was
Originated Several Years Ago
in the Famous Hidcote Estate
of England**

It was brought to this country five years ago and is proving more popular every year. In the temperate parts of this country from Washington south, it reaches a height of 4 to 5 feet and is practically evergreen. In colder parts it may freeze to ground but it springs up again from the base in the spring, reaching 2 to 3 feet. The bright yellow flowers, 2 to 3 inches in diameter, are produced in profusion during the spring months and again during the summer. Planted 18 inches apart it will make a compact, attractive flowering hedge.

This beautiful shrub deserves a prominent place in every garden where continuity of flowers is wanted.

CRAPE MYRTLE

This is a beautiful southern shrub, but it can now be planted farther north, as we have this hardier strain to offer. Grow it just like Everblooming Roses, giving winter protection by mounding up dirt before cold weather sets in. It blooms on new growth. The flowers are lovely clear colors with a soft crepe-like texture. Bloom the first summer after planting, but are sometimes slow to leaf out. One of the most beautiful of all shrubs. Foliage is glossy deep green, and it blooms in the hot summer months, when flowers are so welcome.

We offer these in a lovely red color.

Thomas Edward Kelly with a Dwarf Yellow Delicious Apple
Both 3-Year No. 1

DWARF APPLES

**Our Finest Dwarf Fruit Trees
Delicious Fruit the Second Year**

Espaliered or grown free you receive beauty and full-grown fruit in little ground space. Pluck one of these delicious Apples from your own tree—take a big bite into its tender meat—u-m-m-m—wonderful! And so easy to grow—with fruit so easy to reach. Full maturity brings these trees to no more than 15 feet high. Plant 15 to 20 feet apart in your home orchard.

Your Choice of Varieties

Early McIntosh. Resembles its McIntosh parent; attractive red color with white flesh.

Cortland. Large, round in shape, of bright red color splashed with carmine.

Double Red Delicious. Large, solid red with a delicious flavor. Crisp and fine-grained flesh.

Northern Spy. Attractive bright red color, large size; flesh is crisp and tart.

Red McIntosh. One of America's favorites. Bright red in color with snow-white flesh.

Yellow Delicious. The most popular yellow Apple. Fruit is large and juicy with fine flavor.

Kelly's DWARF

Full Size Fruit From "Baby Size Trees"

Pick Apples and Pears in 3 Years

These Dwarf Type Trees are meeting favor with owners of ranch, bungalow, and two-story homes, especially when garden space is limited.

Besides providing graceful flowers and fruit for the family, "Dwarfs" are an asset as an ornamental tree. Kelly's have scientifically grown these trees to give full satisfaction wherever planted.

Golden
Jubilee
Peach

DWARF PEACHES

Just imagine owning a shapely little 6-7 ft. tree loaded with beautiful soft pink flowers in spring followed by luscious full sized Peaches. Tree always remains dwarf, is hardy, symmetrical and long lived. They are easy to care for and you can pick fruit from the ground without a ladder. The fruit has more color and is slightly larger than standard trees. Best of all, they usually will bear next year after planting.

Varieties Available

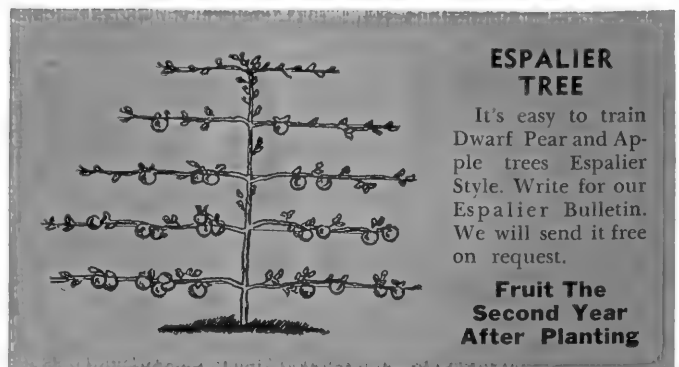

Golden Jubilee. Large, yellow freestone; flesh yellow, tender, juicy and sweet.

Red Haven. Large fruit; almost a solid red with yellow flesh. Freestone.

Elberta. The most popular of Peaches. Large, handsome fruit, yellow with blush; flesh yellow and firm. Freestone.

Dwarf Bartlett Pear Tree

DWARF PEARS

We only wish that space permitted us to print a few of the hundreds of testimonials we get each year, praising the early bearing habits and wonderful growth of our Dwarf Pear trees. Just imagine planting a Dwarf Pear tree this spring and having fruit next year on this 3-4 ft. tree. Yes, this actually happens. At maturity the tree is only 7-10 ft. tall, and will bear bushels of large size quality fruit. We are the largest growers of Dwarf Trees in the country—your assurance of the best trees available.

Your Choice of Varieties

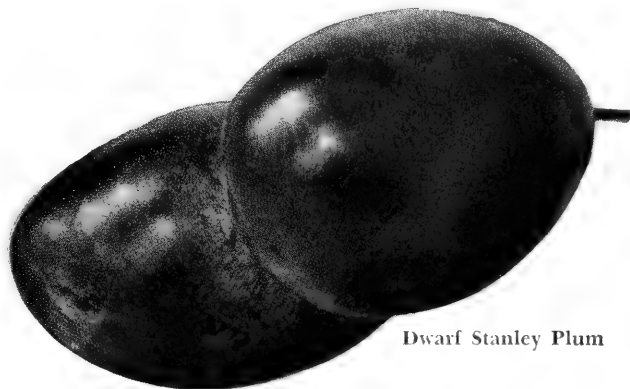

Bartlett. Most popular summer Pear. Fruit is juicy and sweet. Bears full crops.

Clapp's Favorite. Large, pale lemon-yellow fruit. Fine texture, juicy and buttery.

Duchess. Fruit is dull, greenish yellow, spotted russet. A heavy bearer of juicy, delicious fruit.

Dwarf Stanley Plum

NUT TREES *Good For Lawn and Woodlands*

HARDY PECAN

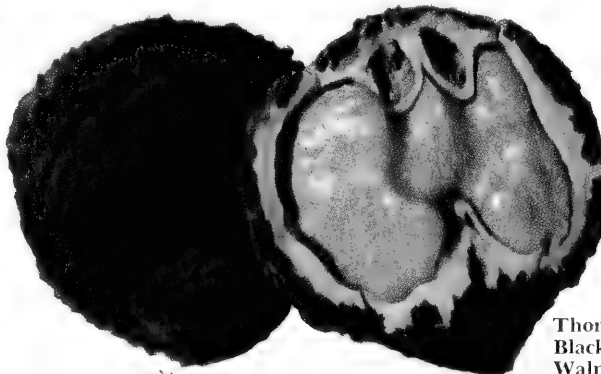

This tree is one of America's largest hardwoods. Growth is much more rapid than the Hickory, and 4 times that of the Oaks. Makes a wonderful clean specimen tree, affording an abundance of shade.

Leaves long, of a light glossy pastel green. Produces great quantities of delicious medium sized thin-shelled nuts, that fall free of hull.

This tree, like the Hickory, has a long powerful tap root, which takes time to dig but having practically no side roots makes planting easy.

Kelly's Giant Hybrid BLUEBERRIES

**Easy to Grow—
Fine Also as Decorative Shrubs
In Your Garden
For Delicious Pies**

Enjoy luscious, juicy, giant Blueberries right from your own bushes. These mouth-watering beauties are as big as Grapes. Delicious for pies, easy to preserve, fine for freezing. Bushes are trim and very ornamental planted in borders or beds.

Complete planting and after care instructions sent with each order.

- ★ **CONCORD.** (Early to Midseason.) Excellent producer and prolific grower. Upright plant. Excellent flavor and size.
- ★ **JERSEY.** Vigorous, hardy bush that grows erect up to 6 or 7 ft. with delightful foliage. Produces very large, light blue berries that ship well. A fast growing, good commercial variety. Attractive and very ornamental with large leaves.
- ★ **PEMBERTON.** Considered the most vigorous of all. A very fast grower of big firm berries. Firmness and slight aroma make wonderful dessert. Very fast grower.
- ★ **RANCOCAS.** Bush of medium vigor, productive. Fruit cluster very tight; berry medium size, oblate, of fair blue color, firm, crisp, with very slight aroma.
- ★ **RUBEL.** A very hardy, upright bush that gives generous yields of medium size, light blue, firm fruit. Its slightly tart flavor is popular with pie bakers.

Blueberries Besides Furnishing the Favored Fruit for the Table, Make Delightful Shrubs in the Garden

To insure best crops of fruit, plant two or more varieties for proper pollination.

Blueberries like acid soil. To increase the acidity use Aluminum Sulphate which is listed below.

Place Your Orders Early

Early Orders help avoid "the planting time rush" and are much easier for us to handle. If you send us your order for nursery stock before March 4, you may take advantage of our special premiums from the list appearing on page 3.

SUMMER APPLES

Months listed after description indicate the time at which the fruit is at its best for general use. Dates indicate time of ripening.

EARLY MCINTOSH. For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform, round shape. The tree is a vigorous grower, hardy and productive. Tends to be a biennial bearer, although for annual crops early thinning is recommended. It comes into bearing at an early age. The flesh is white, tender and juicy with fine flavor. August 15-25.

WEALTHY. Beautiful, moderate sized, brilliant red Apple; fine quality. Owing to hardness of the tree, its adaptability to cold climates and early bearing habits, can be profitably planted as a filler. September 15-20.

WINTER APPLES

Months listed after descriptions indicate the time at which the fruit is at its best for general use.

MACOUN. A late McIntosh type Apple ripening about 10 days later than McIntosh. Dark red with whitish, close-grained flesh. Fine quality. A heavy and regular bearer. Introduced and recommended by N. Y. Experiment Station. November.

MONROE. A Grand New Apple from the N. Y. Experiment Station. Named and introduced for trial in 1949. Tree upright-spreading, vigorous and an annual bearer. Fruit large, roundish conic; color similar to Jonathan, its maternal parent. Flesh yellowish, crisp, juicy and mildly sub-acid; quality good. Winter Apple that offers possibilities for dessert and culinary uses. Supply limited—order today.

NORTHERN SPY. Easily ranks among the very best winter Apples. Fruit is large, very attractive, being of bright red color with a pronounced bloom. Flesh is juicy, crisp and excellent for dessert or culinary purposes. Keeps well in storage until April or later. November-April.

RHODE ISLAND GREENING. As a cooking Apple it is unsurpassed, and as a dessert fruit of its season, has few equals. It is a good keeper but keeps better if picked early. This Greening is a beautiful yellow color when ripe and an abundant yielder. December-April.

6 GOOD APPLES

Kelly Bros. Recommend These Varieties as Excellent for Home Garden

CORTLAND. An Apple of the McIntosh type, combines the high quality and flavor of the McIntosh, and tendency to hang to the tree of the Ben Davis. The fruit of Cortland is larger than that of McIntosh, round in shape, color bright red splashed with carmine and overlaid with purplish bloom. October-February.

DOUBLE RED DELICIOUS. A large, dark red Apple, with crisp, fine-grained flesh of excellent quality and flavor; splendid keeper and shipper. Tree one of the hardiest. A regular annual bearer. Excellent for eating and the most popular fruit stand Apple. Nov.-March.

LODI. A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. August 10-15.

YELLOW DELICIOUS. A bright, golden yellow Apple of excellent quality. Firm, crisp, and very juicy. Splendid keeper. Bears young and heavily. October to April.

RED MCINTOSH. (Rogers Solid Red Strain.) Without doubt the leading commercial variety of New York and the New England States. A very attractive red Apple of the highest quality. Hardy, bears young and annually. Flesh white, fine, very tender, juicy and refreshing, with attractive flavor. October-January.

RED ROME. Red sport of Rome Beauty, and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red color. December-May.

PLANTING INFORMATION

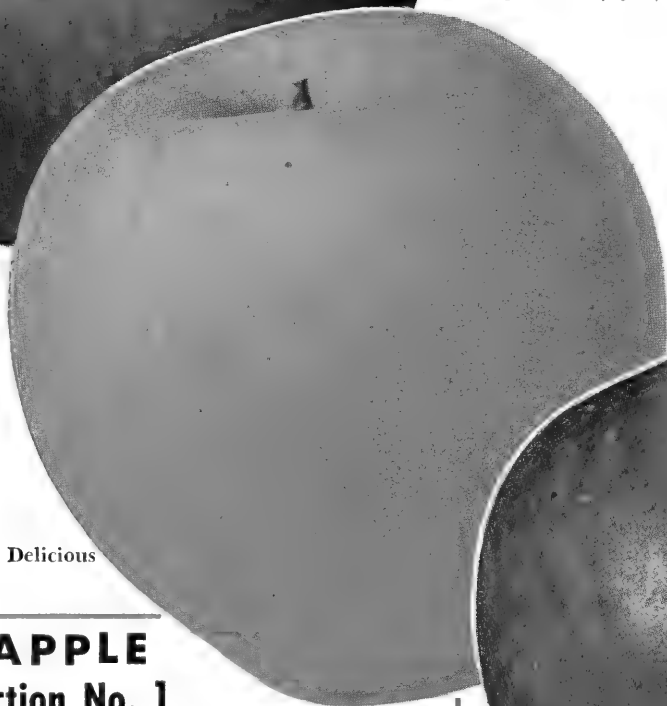

Standard Apple Trees will start bearing fruit two to three years after planting, depending on the variety and the care the trees receive. Trees may be planted as close as 30 feet apart in which case 45 trees can be planted to the acre.

POLLINATION

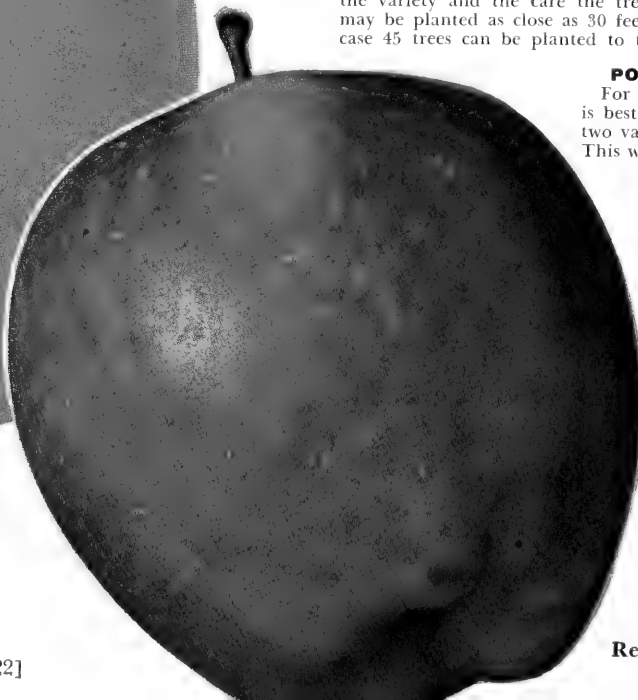

For better crops, it is best to plant at least two varieties of Apples. This will result in cross-pollination of the blossoms of the two different varieties and result in a good set of fruit.

Kelly's QUALITY PEARS

Top Quality — Northern Grown Popular Pear Varieties

Kelly's Famous **BARTLETT**

America's Favorite for Size and Taste

There's hardly a person that doesn't know the Bartlett Pear and its qualities, as it is grown in, and is adaptable to all different climates, soils and situations. Fruit is large, golden yellow in color with a reddish blush on the sunny side. Flesh is tender and juicy, with a delicious musky aroma. Trees are vigorous, attain large size, bear young, live long, and barring frosts or freezes, they bear full crops year after year. Justly the leading commercial Pear—a leader among canning Pears. Sept.-Oct. (Sept. 1st-10th.)

BOSC - Quality Pear

Kelly's Has Recommended This Variety for Years

A Pear which is rated by all as "very good" or "best." Has a long, tapering neck and a long stem which allows it to sway in heavy winds without dropping. Brownish yellow in color. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. The tree is a slow grower, but most productive. Oct. to Jan. (Sept. 25-30.)

Bosc is a Very Delicious Eating Pear

CLAPP'S FAVORITE

A Full Bodied Pear That Should be in Everyone's Fruit Garden

Precedes Bartlett, which it resembles in size, shape, color and flavor. It is the first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine texture, juicy, buttery, with a rich, sweet, delicate vinous flavor. Tree hardy and productive. Thrives where other varieties fail. August 15-20.

GORHAM

A seedling of Bartlett and closely resembles its parent in all characteristics and ripens from 3 weeks to a month later. It rivals Bartlett in all good qualities, being as large and handsome and as good or better to eat or to can. Fine canner—introduced by the New York State Experiment Station. (September 10-25.) Not illustrated.

SECKEL

The Pear to plant for eating fresh and pickling. Medium size, skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh very fine grained, juicy, sweet and good. Trees resistant to blight, very productive and hardy. Should be planted in fertile soils, not heavy clay. Sept. and Oct. (September 20-25.)

POLLINATION

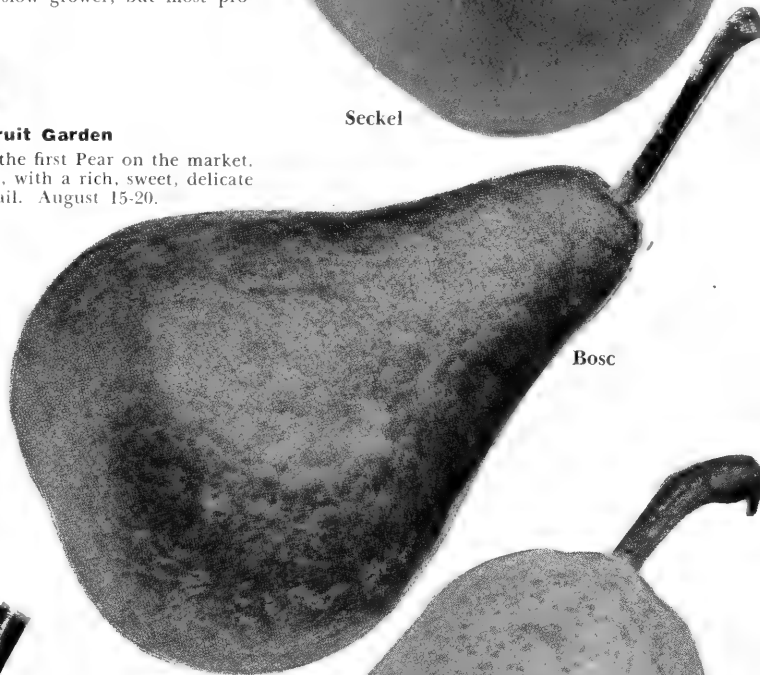

For a better crop, it is best to plant at least two varieties of Pears. This will result in cross-pollination of the blossoms of the two different varieties and result in a good set of fruit. Where Bartlett and Seckel are planted, a third variety is needed as Bartlett and Seckel will not pollinate each other.

4-in-1 Dwarf Pear

Amazing 4-N-1 DWARF PEAR

The 4-N-1 Dwarf Pear tree bears four outstanding favorites **Bartlett, Flemish Beauty, Anjou and Clapp's Favorite**. Think of this Dwarf Pear tree growing in your back yard or front lawn with fragrant pink and white blossoms . . . later with sweet, juicy fruit of vivid red, spotted russet, lemon-yellow and summery green. Your neighbors will be amazed. And think of the pleasure you'll have walking out the door and **JUST REACHING UP** for this fresh, tender fruit.

Bears FULL-SIZE Fruit Faster Than Standard Trees

Each one of these extra-hardy, disease resistant trees comes guaranteed to be vigorous and long-lived. They require minimum care and best of all, they come into bearing from two to three years earlier than standard trees. Many trees available on this offer have **ALREADY** borne fruit in the nursery row.

Here is a masterpiece of horticultural skill and imagination . . . a home-owner's "dream-orchard" come true.

RECOMMENDED BY KELLY BROS. NURSERIES, INC.

and vigorous grower. A good commercial variety. Ripening date July 20-26.

The Great NAPOLEON (Sweet) (Royal Ann)

Choice Sweet Cherry. Good for market and canning. Large size, beautiful Cherry, pale yellow with bright red cheek; sweet, juicy and firm. The leading pink cheeked Sweet Cherry. Ripens July 7th to 10th.

PLANTING INFORMATION

Sour Cherries will begin to bear fruit the second or third year after planting. The trees may be planted as close as 20 feet apart, and if planted 20 x 20 would require 100 trees to the acre. Sweet Cherry trees will start to bear the third or fourth year after planting. These may be planted as close as 25 feet apart and if planted 25 x 25 would require 60 trees to the acre.

POLLINATION OF CHERRIES

Sweet Cherries are self-unfruitful, so must be interplanted. Where Napoleon and Emperor Francis are to be planted together, another variety, such as Windsor or Black Tartarian must be added, as the first two will not pollinate each other. The Sour varieties are self-fruitful. Sour Cherries will not pollinate Sweet Cherries, and vice-versa.

BLACK TARTARIAN

Well known and popular sweet Cherry; very large, bright purplish black, juicy, and has a rich flavor. Excellent for canning and a good shipper. Trees are remarkably vigorous and erect growers, produce immense crops. Ripening date June 20-July 4.

Black Tartarian

MONTMORENCY

The Leading Sour Cherry

"Best Pie Cherry." Fruit is good size, fine flavor, bright clear red. The canning factories are always calling for them and buy them by the hundreds of tons. The best of all sour varieties; is a good shipper, very attractive and always brings good prices. Fruit ripens early to mid-July. It is self-fertile.

HALL'S ALMOND

NEW RED LEAF PEACH

*Bearing Edible Fruit
Decorative Lawn Tree*

Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Deep rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small perfectly round Peaches, about 1½ inches in diameter. Fruits have an over-all red color slightly splotched, and ripen quite late.

We are pleased to offer this new improved dual tree that blooms so beautifully and bears a fine crop of delicious Almonds. Northern grown; these trees are hardy and can be grown wherever it is possible to grow Peach trees. They produce abundant crops of top quality, nutritious nuts. Used extensively by commercial bakers and confectioners, and housewives everywhere. Hall's Almond is a rapid growing young bearing nut tree. The nuts are large and of fine quality—its dual purpose of being a fine ornamental makes it an attractive addition to any landscape planting—the blooms are attractive, the foliage is deep green in color. Best results are obtained by planting 2 trees. Supply limited—order today.

I wish to thank you for your quick reply to my letter and the notification that at the fall planting season, we will receive new trees and bushes.

It is gratifying to do business with such a reliable company.

Mrs. David N. Welch

NOW!! Kelly's 5 FOLD APPLE TREE

A Revelation in
Apple Tree Performance

5 DISTINCT VARIETIES ON 1 TREE

This is the one tree for those who want several kinds of Apples, who do not have much ground available. With its flowers, rich green foliage and fruit, it is attractive enough to plant in your front yard.

To meet the request of our customers, we are propagating fruit trees with five varieties budded on top. We offer these "One-Tree Orchards" as a novelty—and for our customers with limited planting space.

Scientifically Budded to Produce Five Kinds of Apples on One Tree

Choice Rhubarb

VALENTINE. Newest and best of the red Rhubarbs. It is sweetest of all, requiring the least sugar. Makes delicious pies and bright red sauce. Excellent for home use and freezing. Out of 25 varieties tested in Canada, "Valentine" rated highest. Color was an even bright red; texture smooth and tender. Flavor pleasing with a slightly tart after-taste."

\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.

RUBY RED. Another new red Rhubarb introduced from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby is as red as Strawberry sauce. Skin so tender it can be cooked with the stalk. Prolific yielder.

\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.

CANADA RED. The reddest of all Rhubarbs. Has large, tender, juicy stalks that are rich red all the way to the heart and even to the midribs in the leaves. Skin so tender you need not peel it. Canada Red, a heavy producer, can be used throughout the season.

\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.

FILBERTS (Hazelnut)

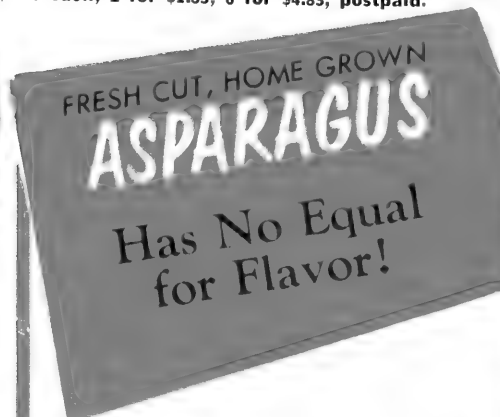

This is a good eating, easy to crack nut. It grows normally into a large shrub, 12 to 15 feet high, but can be kept trained into a small tree. If Peaches are hardy in your section, you can plant Filberts with success. Plant at least two different varieties for pollination.

ROYAL. Largest of the commercial Filberts and heaviest producer. The world's finest Filbert.

BARCELONA. The leading commercial variety in the United States, and the kind you usually find in the stores. An excellent variety to plant with Royal.

Each 2 for
3-4 ft. \$2.95 \$5.75

Postpaid

You'll be surprised how easy it is to grow Asparagus sufficient for a family of four or five. It is very healthful, rich in minerals and vitamins.

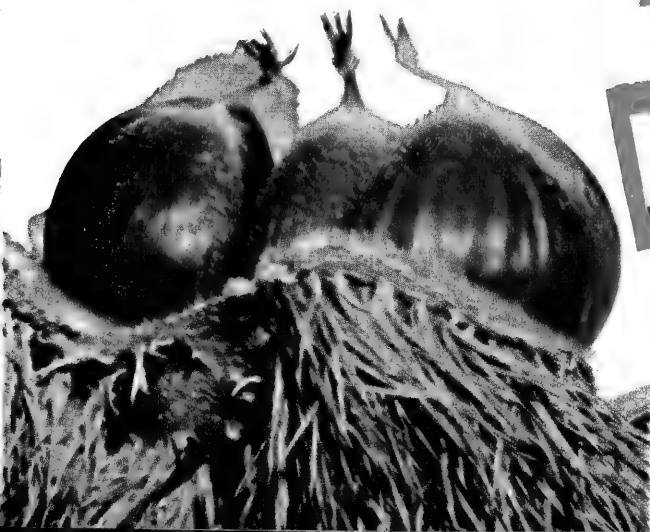

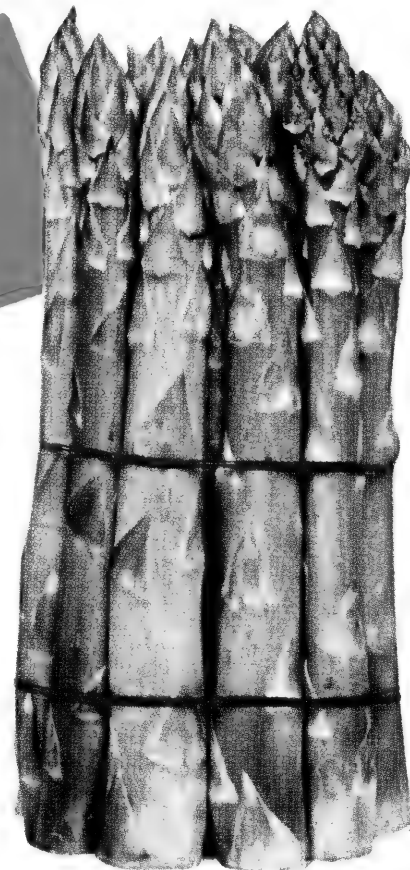

MARY WASHINGTON. The Outstanding Variety. This is, without doubt, the best variety at this time. It is a very strong grower, stalk giant size, green color, rich and tender. In addition to being very productive it is rust-resistant and a bed will last for years.

CHINESE CHESTNUT

**A FINE LAWN TREE
FRUIT SO GOOD TO EAT**

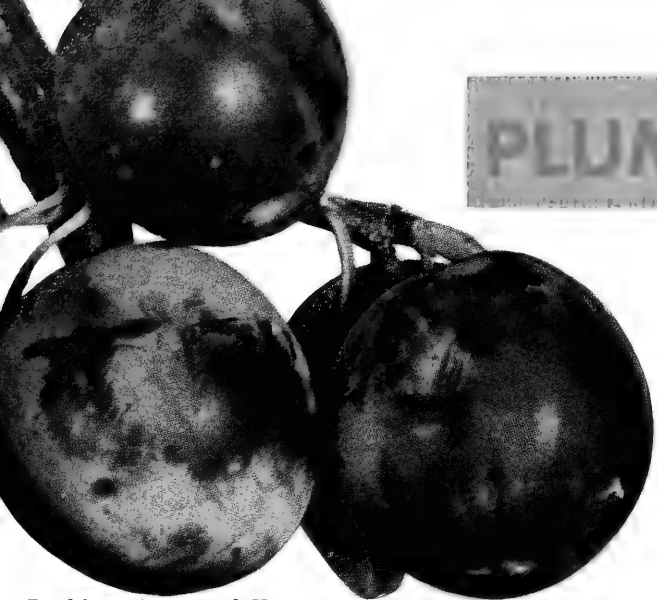

Hardy, Blight Resistant

These new blight resistant trees will bear nuts two years after planting. They are a fast growing tree and an ideal plant to take the place of the old-fashioned American Chestnut that we all remember from our childhood days. The fruit is fully as delicious as the native American Chestnut and slightly larger in size. Grows to 35 ft. tall. Best crops are insured by planting two or more trees for pollination.

(See page 20 for additional Nut trees)

Bradshaw—Sweet and Tasty

BRADSHAW PLUM Juicy—Heavy Bearer

A very large and fine early Plum. Attractive, dark violet skin with yellow flesh. Very juicy; excellent for dessert use and for canning. The tree is hardy, and a vigorous grower. Especially desirable because of its ability to produce heavy crops of delicious fruit annually. Bradshaw is recommended for the home orchard as well as for the commercial grower. September 5-10.

Shiro—
The Golden Plum

Santa Rosa
Excellent Flavor

PLUM and PRUNE

BURBANK. Fruit very large, bright reddish purple. Meaty and quite firm. Should be picked before entirely ripe. Best colored fruit attained when thinned on the trees. Trees are low growing, flat-topped with somewhat drooping branches. Productive and vigorous. Good shipper. Aug. 25-30.

FELLEMBERG PRUNE. Also known as **Italian** and **German**. Widely known and valuable Plum for dessert, but most esteemed for market and drying for preserves. Fruit is long, oval, purple with a thick bloom. Flesh firm, sweet and pleasant, separating freely from stone. Moderate growth. A great favorite and there is always a good market for them at profitable prices. Sept. 24-26.

DAMSON. Fruit is medium size, dark purple, produced in thick clusters. Good to eat out of hand when fully ripe or after a light frost. One of the best of its kind for culinary purposes. Tree a good grower and very productive. September 24-28.

REINE CLAUDE or GREEN GAGE. Has beautiful fruit, large, pale yellow marked with red if the crop is thinned and sufficiently exposed to the sun. Trees attain only moderate size in the orchard, are productive and bear regularly. Deserves a place in the home orchard. September 25-30.

STANLEY—A Better Kelly Prune. Popular with the commercial and home gardeners. The best for commercial planting or home use. Bears fruit in three years and ripens 10 days earlier than other varieties. Exceptionally productive. Fruit large, deep bluish purple, firm and sweet; of excellent flavor. Introduced by the New York State Experiment Station, and is becoming a valuable commercial variety. Bears annually. Midseason. September 20-25. Same price as other Prune trees.

SANTA ROSA—A Deluxe Plum of Great Size. A very promising Oriental variety. Fruit is handsome, dark reddish purple. Large with very juicy, red flesh of good quality. Tree is large, vigorous and moderately productive. August 20-26.

SHIRO

The Golden Plum Everyone Loves to See and Eat

A Golden Yellow Winner. A very early Plum. Beautiful golden yellow variety. Tree is low growing, hardy, very prolific. Excellent for cooking, canning and dessert use. People who like Plums should be sure to plant this variety. Ripens August 8-15.

SUPERIOR PLUM

A freestone, sweet, juicy, yellow flesh covered with wine-red skin. Trees bear early and yield big crops of extra large Plums. A hardy variety, recommended for northern and western states. Plant 2 trees for best results, or if planted singly is a good pollinizer for other Plums. Ripens early in August.

POLLINATION

With the exception of the Prunes: Fellemberg, German, Stanley, etc., which are self-fruitful, Plums should be interplanted to insure a set of fruit—European varieties for pollinating that class and Oriental sorts for those varieties.

Burbank and **Santa Rosa** are Oriental varieties, balance are European varieties.

PEACHES

Kelly's GOLDEN JUBILEE

The Sensational Peach, Excellent Canner

We recommend this New Jersey Experiment Station introduction. It's a real money maker. Quite hardy. Sure cropper, after severe winters and heavy frosts. **Golden Jubilee** is without equal as an early, large yellow freestone of highest quality. Flesh is yellow, tender, juicy and sweet. August 20-25.

FAIRHAVEN

Early midseason, ripening after **Golden Jubilee**—about 3 weeks before **Elberta**. Flesh yellow, free. Good for freezing and canning. A promising variety.

BELLE OF GEORGIA

Large, attractive, white-fleshed Peach. Red cheek. Hardy, productive and freestone. Sept. 3-7.

BLAKE

A firm, bright, yellow-fleshed freestone of good quality. Has long harvesting season, starting about one week before **Elberta**, and continuing well into the **Elberta** season. Fruit hangs to the tree after it becomes highly colored.

Kelly's RED HAVEN

A new, early Peach. Introduced by the South Haven Experiment Station, it has the fine flavor of the South Haven and the **Hale-Haven**. When other early Peaches are still green, this Peach is a bright red and ready to ship before it is fully ripe. Hardy. Freestone. Self pollenizing and a prolific yielder. August 20-25.

FOWLER

(Pat. No. 567)

This Peach was developed by Mr. George R. Fowler of Marlboro, N. Y. It is a large, yellow Peach of the **Elberta** type, very hardy. Tree of vigorous growth and exceptionally disease-resistant. Fruit matures a week later than **Elberta**, ripening evenly. Firm, thick-skinned, excellent shipper. Fine flavor and practically fuzzless.

1-yr., 2-3 ft.	1.40	3.45	10.45

Kelly's ELBERTA

A National Favorite

Leader of all Peaches and the greatest commercial variety on the market. A beautiful Peach of good quality; not only the best orchard variety but also for planting in the garden. **Elberta** is harder in bud than many varieties, therefore a more uniform cropper. It is large, juicy, high flavor. Flesh yellow; freestone. September 15-20.

Fowler

Hale-Haven

Golden Jubilee

Red Haven

Kelly's HALE-HAVEN

A marvelous Peach, result of crossing the Famous J. H. Hale with South Haven. A large, beautifully colored, yellow-fleshed Peach. Ripens approximately 10 days to 2 weeks ahead of **Elberta**. Perfect freestone; strong grower. Good shipper; prolific, heavy bearer. Tree hardy, fruit of highest quality. September 1-5.

J. H. HALE

An extra large freestone. Flesh golden yellow, of delicious flavor. A fine commercial variety. This is the only variety we offer that must be cross-pollenized with some other variety. Any variety we offer is suitable for planting with **Hale**. Sept. 17-21.

PLANTING INFORMATION

Peach Trees are fast growers and fruit can be expected the second or third year after planting. It is not unusual to have fruit the first year after planting. Normal planting distance is 20 feet apart. If this distance is followed, 108 trees may be planted per acre.

Elberta

TRY THE FINE AMBER RASPBERRIES
FOR UNUSUAL FLAVOR

AMBER RASPBERRY

Introduced by the New York Experiment Station. We have now built up stock sufficient to offer this new variety for the first time.

Its beautiful amber color has novelty appeal in the fruit markets and roadside stands. Ripens mid-July, extends the season for home-grown Raspberries.

The berries are as large as any other Raspberry, not crumbly, flavor is sweet and quality of the best.

PLANTING INFORMATION

In a home fruit garden, all Raspberries—Black, Red or Purple, and Blackberries can be planted 3 to 4 feet apart in the rows and the rows 4 to 6 feet apart. Plants will bear fruit the first or second year after planting. If planted 3 feet apart in the rows and the rows spaced 6 feet, 2400 plants can be set per acre.

September

Kelly's RASPBERRIES

Guaranteed to Grow and Bear

Our dependable Raspberries are fully developed with strong fibrous roots. Besides being decorative, they are easy to grow, and within a year you will be enjoying quality fruit picked fresh from your own garden.

DURHAM

(Everbearing)

This is a new Red Raspberry that bears the usual crop in early summer on the old canes. Then in just a few weeks the new canes start bearing, and continue for weeks until freezing. The fruit is not as large as September. Bright red color, good quality. Excellent for eating fresh, pies, jam or freezing. Heavy producer. Hardest of all red everbearers.

MILTON

A late variety for home and market use. The berries are large, attractive bright red, firm, not crumbly, mild sub-acid and good. They ripen two or three days later than Latham. The plants are vigorous, productive, hardy and have remained free from mosaic.

SEPTEMBER

(Everbearing)

Now you can plant a Raspberry that will produce an abundant crop in June and a crop of equal size in September. Fruit comes earlier and is larger, and of better quality than any other Raspberry.

Developed and introduced by Prof. George L. Slate of the New York State Experiment Station. This station has long been known for leadership in developing new and successful fruits.

Ripens 2 to 4 weeks ahead of other varieties in the fall. The berries are firm and don't crumble.

Latham

LATHAM

A Great Commercial Berry

10 CHOICE PLANTS, \$2.75

The leading Red Raspberry in all parts of the country. Latham is free from insects and diseases and multiplies rapidly. Berries are large, plump, juicy, free from seediness and full of delicious flavor. Very hardy; cold weather seems to have no effect on its bearing ability. Ripens July 1-10.

BLACK RASPBERRIES

BRISTOL

This is one of the best Black Raspberries. The berries are large, firm, fairly glossy, and of excellent quality. The bushes are hardy, vigorous, and bear heavy crops. Worthy of trial for market and home use.

DUNDEE

A promising new Black Raspberry, notable for its high quality. The berries are large, glossy black, moderately firm, mildly sub-acid and very good. Its tall plants are vigorous, productive, and moderately resistant to mosaic.

SODUS (Purple)

Rich, delicious, reddish purple fruits of large size. The berries do not crumble, and their flavor is rich and sweet. Delicious eaten fresh, and make wonderful jam. Excellent for freezing. Plants are very hardy and have few briars.

BLACKBERRIES

BAILEY

Here is a new Blackberry introduced in 1950 by Dr. Geo. L. Slate of the New York State Experiment Station. Intensive breeding work has been going on at the New York State Experiment Station to improve Blackberries. Bailey is now considered the best of recent introduction and we are concentrating our production on this variety. The berries are large, attractive, moderately firm, sub-acid and of good quality. The plants grow tall, vigorous, hardy and productive. Ripens in western New York during the latter part of July. For home use and commercial production, we recommend this variety.

1-Yr., No. 1 Plants, Postpaid: 6 for \$1.95; 12 for \$3.75; 25 for \$7.25; 50 for \$13.50; 100 for \$21.95; 250 for \$46.50.

Not Postpaid: 500 for \$87.50; 1000 for \$135.00.

CURRENTS

RED LAKE. The new, giant red Currant. A pleasure to pick. Berries large, dark red in color, on long, well filled branches. Very hardy. Ripens over a long season. Long stems make picking easy.

Select, No. 1 plants, 90c each;
3 for \$2.45; 10 for \$7.95; 25 for \$18.45, postpaid.

THORNLESS BOYSENBERRY

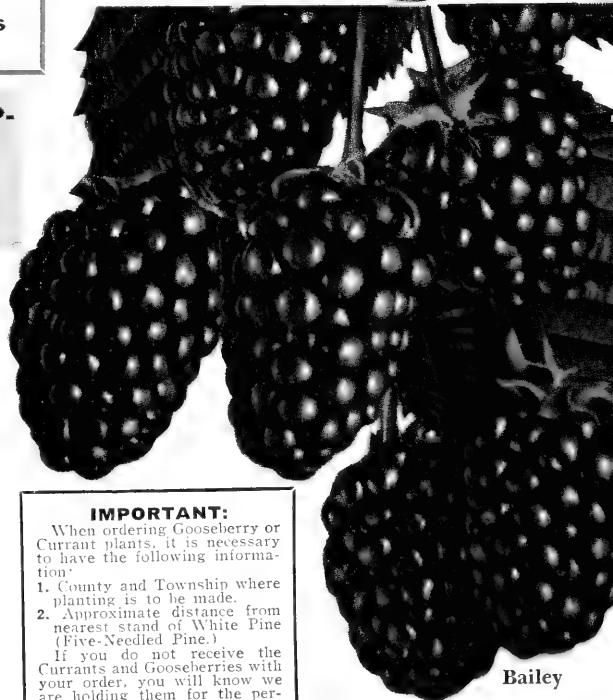

Giant Size—Delicious Flavor

Canes smooth as velvet. Ripens ten days to two weeks earlier than the common Boysenberry. The thornless strain retains all the good characteristics of its parent, including its rugged, thrifty growth. You will enjoy picking these large, juicy berries without scratching your hands.

Select plants, 3 for \$1.15; 6 for \$2.05; 10 for \$2.95; 25 for \$6.25, postpaid.

Dundee
Raspberries

Bailey

IMPORTANT:

When ordering Gooseberry or Currant plants, it is necessary to have the following information:

1. County and Township where planting is to be made.
2. Approximate distance from nearest stand of White Pine (Five-Needled Pine.)

If you do not receive the Currants and Gooseberries with your order, you will know we are holding them for the permit. If the permit is not granted, refund will be made.

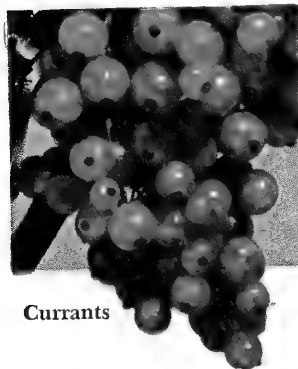

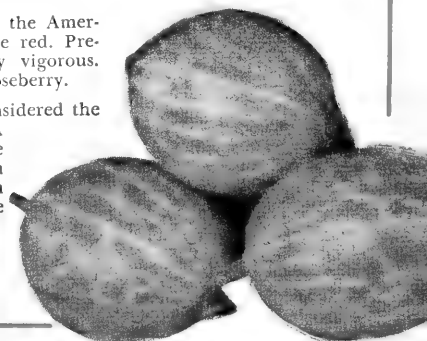

GOOSEBERRIES

Strong Grower . . . Delicious Fruit

POORMAN. Largest fruit of the American Gooseberries. Attractive red. Prefers heavy soil. Bush very vigorous. Highest quality of any Gooseberry.

PIXWELL. A new variety considered the best on the market today. A very heavy bearer with the berries being a light green that turns to pink when fully ripe. Will bear the next year after planting.

Selected, 2-yr. plants,
\$1.25 each; 2 for \$2.25,
postpaid.

Currants

Boysenberry

The New Hardy *Interlaken* SEEDLESS GRAPE

A California Seedless Type That Is Hardy In the North

Origin: It was developed from crossing the Thompson Seedless, a California Grape, with our own Ontario.

Hardiness: It has proven hardy in temperature to 15 degrees.

Quality: The fruit is very sweet and the flesh is meaty and crisp and of excellent texture. Ripens a full month before Concord, about August 30th or earlier.

Selected, 2-year vines,

STEUBEN

Blue-Black Grape

A New Creation of New York State Experiment Station

Never before have we grown a Grape of such exquisite flavor. Melting, tender, sweet with a delicate perfume-like flavor. Grows huge, perfectly formed, long slender clusters. Fruit is of outstanding quality, and the vine very hardy. Produces a full crop after 20 below zero. No spraying necessary—it is absolutely free from rot and mildew in our planting. Ripens a few days before Concord, but keeps well until Christmas. The greatest blue Grape ever grown. Supply limited—order early.

2-yr. vines, \$1.50 each; 2 for \$2.75, postpaid.

Kelly's Heavy GRAPE VINES for • Flavor • Size • Yield

ROMULUS SEEDLESS GRAPE

A sister to the Interlaken. (They were both developed at the N. Y. State Experiment Station.) We can recommend this new variety to extend your Grape season. Ripens about September 15th or 2 to 3 weeks after Interlaken Seedless.

Flavor, quality, size of berries and clusters very closely resembles the illustration of Interlaken Seedless on page 32.

Select vines, \$1.50 each; 2 for \$2.75, postpaid.

Concord Grape

**A National Favorite—Bunches Are Large
Color All-Over Blue-Black**

The leading commercial Grape. Color blue-black; berries and bunches large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for Grape juice, September 25 to 30. **75c each; 3 for \$1.95; 10 for \$5.45; 25 for \$11.25; 50 for \$17.50; 100 for \$29.75, postpaid.**

Old Favorites in Grapes

DELAWARE (Red)

Bunches and berries small. Light red. Unusually sweet and delicious. One of the best red varieties. September 20. **75c each; 3 for \$1.95, postpaid.**

FREDONIA (Black) A Fine Sweet Grape

The leading early black Grape. An introduction of the New York State Experiment Station. Plant is a strong, healthy grower. Clusters medium in size. Berries large and juicy. September 5-10. **75c each; 3 for \$1.95, postpaid.**

NIAGARA (White)

The most popular white Grape. Bunches and berries extra large. Vigorous, productive and a good keeper. September 25-30. **75c each; 3 for \$1.95, postpaid.**

PORTLAND (White)

Holds first place as an early white variety. Vine is hardy, healthy and productive. Bunch and berries largest of all white Grapes. September 1-8.

New Extra Choice Grapes

SEIBEL 9110 - New French Hybrid

Developed in France, this Grape is a beautiful golden yellow. Because of its excellent dessert qualities and early fruiting habit, we recommend that this variety be added to your planting. It is common for 2-year vines in the nursery to bear fruit. It has crisp texture and its good eating quality makes it a fine variety for roadside sales. Ripens in western New York about Sept. 15th.

2-yr. select vines, \$1.50 each; 2 for \$2.75, postpaid.

GOLDEN MUSCAT California Type Grape

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine Muscat aroma of European Muscat. Vine is vigorous, productive. The clusters are very large and compact. Berries are large, juicy, sweet and tender. Oct. 5-10.

Selected, 2-yr. vines, \$1.00 each; 3 for \$2.75, postpaid.

VAN BUREN (Black)

Best new, early Grape. Desirable for home and commercial planting. Resembles Concord, but much sweeter and very juicy. Aug. 28-Sept. 2. We highly recommend this variety. Vine is heavy producer and vigorous in growth.

Selected, 2-yr. vines, \$1.00 each; 3 for \$2.85, postpaid.

EASY TO CARE FOR—LAST A LIFETIME

Kelly's Grape Vines last a lifetime. Plant our selected plants. Guaranteed to be the finest grown. Easy to grow, adapted for a wide range of soil and climate. Prolific bearers. Fruit ideal for dessert, jelly, jam or juice. Planting instructions with each order.

SPARKLE

This variety originated at the New Jersey Station. It is claimed the best late variety that has been tested at the Geneva, N. Y. Experiment Station. This highest quality Strawberry ripens a week later than Premier. Recommended for freezing. The plants are vigorous and produce runners freely; produce an excellent crop. Recommended for the New England States.

NEW VIRUS-FREE STRAWBERRIES

You can be sure our Strawberry plants are the best available. All plants listed on pages 34 and 35 are the new VIRUS-FREE strains introduced by the U. S. Department of Agriculture.

Experiments show that our plants BEAR HEAVIER and are MORE PROLIFIC than common Strawberries. The plants will LIVE LONGER and produce LARGER BERRIES.

These virus-free plants are the greatest advance in the history of Strawberry growing. Order your plants from us now, and see how easy it is to grow large crops of delicious fruit.

STRAWBERRY FAVORITES

EMPIRE A New Strawberry. A Creation of New York State Experiment Station. (Midseason to Late.) Red, larger. A new variety for both the home and roadside stand. Produces huge berries over an unusually long season. Where space is limited for the home garden, Empire will give the most fruit in the least space. Raise for fresh use only. Very attractive berries of excellent quality average extra size. This fruit is firm, holds its appearance well, withstands adverse growing conditions, thus making an excellent shipping berry.

GROW STRAWBERRIES The PYRAMID WAY

50 PLANT PYRAMID

Brand new Judson Pyramid garden, six feet in diameter, with three planting terraces. The 5-inch aluminum bands are corrugated and the completely new sprinkler is standard equipment, at no extra cost.

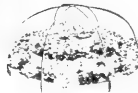

Pyramid Garden without plants, \$9.95.

With 50 Red Rich Strawberry plants, \$18.45.

With 50 Superfection Strawberry plants, \$14.25.
Postpaid.

PYRAMID ACCESSORIES

SUPPORT FRAME

New plastic covered metal frame forms perfect hemisphere over Pyramid. Frame is required for netting and plastic cover. **\$3.95, postpaid.**

NETTING

Newly designed marine netting is strong and durable. Net protects Pyramids from birds and holds winter mulch. **\$6.95, postpaid.**

PLASTIC COVERS

New Plastic Cover can be used in several ways. For early planting and most protection of Strawberry plants or as hotbed for plant production. **\$6.95, postpaid.**

Miracle Plum

Kelly Garden Specials in the Newer and Novelty Fruits **HOWARD'S MIRACLE PLUM**

(Plant Patent No. 721) **The Most Sensational Fruit of a Decade
The Wonder Plum of the Age**

This new fruit marks a new era in the advancement of fine fruits for the table. It has a delicious and tantalizing flavor, is large size, has firm amber flesh, and its red and yellow Maple leaf color places it in a class by itself.

Those fortunate enough to have eaten this fruit, offer various comments as to its flavor. Some say the taste is like Pineapple, others compare the taste to a Peach, Plum and Nectarine combined. Invariably, after tasting the "Howard's Miracle", comes the exclamation: "This fruit is truly a miracle. It is something out of this world." "HOWARD'S MIRACLE" is even more delicious in preserves.

Has a thin skin which is unnoticeable when eating, while the meat is Nectarine-like in quality. The fruit of Howard's Miracle is extraordinarily large, averaging $2\frac{1}{2}$ to $2\frac{3}{4}$ inches, but the seed is only miniature.

It is beautiful for lawn planting, foliage becomes richly tinted in the fall, similar to a Maple. Very hardy—having been reported by customers to survive 20 degrees below zero in northern Wisconsin without damage. Grows 15 to 20 ft. in height.

Howard's Miracle is undoubtedly the most exciting fruit today. You will find that you have never tasted fruit like it. Is it Nectarine? Is it Peach? Is it Plum? Is it Pineapple? Plant one or more of the exceedingly fast growing, quick bearing trees and harvest fruit the second year.

3-4 ft., \$2.25 each; 2 for \$4.25, postpaid.

COLLETTE PEAR

New EVERBEARING Pear

(Plant Patent No. 1401)

**By Far the Most Deliciously Flavored Pear
On the Market Today**

It blooms at the normal blossoming time, and then keeps on blooming and bearing new fruit most of the summer. You will find branches with blossoms and small, green Pears, half-grown, half-ripe Pears, and full-grown ripe Pears—all at the same time. It is the only everbearing Pear.

The fact that it is everbearing is reason enough for you to plant it in your yard.

The fruit is firm, smooth textured, juicy and sweet. Has no "grit." It is medium to large in size and will not rot at the core when fully ripe.

Prices postpaid: 4-6 ft., \$3.25 each; 3-4 ft., \$2.75 each; 2-3 ft., \$2.25 each.

NEW Summer Long EVERBEARING PEACH

(Plant Patent No. 1503)

Here's a brand new Kelly introduction in 1956. Just imagine a Peach tree bearing Peaches starting about the 20th of July through the 25th of September. The tree produces medium size, freestone Peaches of excellent quality. The flesh is very sweet and tasty. It has good firm skin which does not bruise easily. This is a real novelty and a practical plant. Instead of having fruit for only a week or two, now you can pick fruit for as long as 2 months. Our supply of these trees is definitely limited. We suggest that you order today.

4-6 ft. trees only \$2.95; 2 for \$5.75, postpaid

5-N-1 Dwarf Apple Tree

A horticultural wonder. By special budding in the nursery you can have five different kinds of Apples growing on one tree. The trees will never grow higher than you can reach. You will have great big regular size fruit from a one-tree orchard. Very suitable where you have only a limited space for planting. Fruit all the time and no more ladders, long pruning poles, or high pressure sprayers. Will bear in two to four years.

VARIETIES: McIntosh Red, Cortland, Red Rome, Double Red Delicious, Yellow Transparent.

3-year trees, 3-4 ft., \$4.75 each; 2 for \$9.25, postpaid.

HEDGES Grown by Kelly!

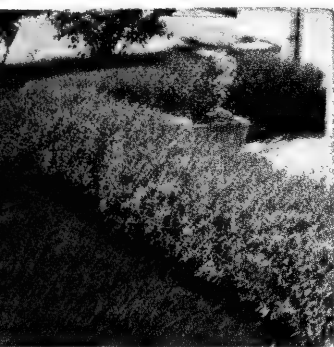

Chinese Elm

An Excellent Windbreak
Can be Trimm'd in Height From 5 Feet
to 20 Feet.

For Any Size Hedge. Extensively
Hardy. Rapid Grower.

This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 5 to 20 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above the ground. Plant 8 inches apart.

	12	25	50	100
18-24 in.	\$1.25	\$2.25	\$4.25	\$8.25

Blue Leaf Hedge

The Effective BLUE LEAF HEDGE

A new, charming, silvery blue-green shrub. Grows anywhere, in sun or shade, dry, wet or heavy soils where other plants perish. If left untrimmed, its feathery, willowy foliage makes a beautiful, compact, dwarf hedge 3 feet high and 2 feet wide. If trimmed it makes a colorful low, formal hedge. Just the thing for low edgings, around beds or along walks. Single specimens are delightful in the rock garden. Plant 1 foot apart.

2 Good Hedges

BRIDAL WREATH - Spirea Van Houttei

One of the best known shrubs of America. Exceptionally hardy and will grow in either sun or shade. Attains a natural height of 5-6 ft. and is completely covered with clusters of small white flowers in June. Can be trimmed any time during the summer. Plant 3 feet apart for an informal hedge.

	10	25	50	100
12-18 in.	\$3.75	\$8.75	\$14.95	\$24.95

BUSH HONEYSUCKLE - Lonicera tatarica

Very hardy, growing in the poorest soil. Flowers freely in May and June with fragrant pink flowers, followed by red berries in the fall that are attractive to birds. Rapid growing, attaining a height of 8-10 ft. and is ideal for specimen planting, hedging or screening purposes.

	10	25	50	100
12-18 in.	\$3.95	\$8.25	\$14.95	\$24.95

GREEN LEAF BARBERRY THUNBERGI

Best all-purpose hedge of marked excellence because of its bright green foliage, changing to brilliant colors in the fall. Has bright scarlet berries throughout the winter. Dwarf and regular spreading in habit. Grows well in shade, used extensively in landscape work. Very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge.

Honeysuckle Hedge

Red Leaf Barberry—A Protective Hedge

MIDGET HEDGE TEUCRIUM CHAMAEDRYIS

A low growing hedge suitable for edging or growing in front of a wall. Resembles dwarf Boxwood, holding its leaves 10 months of the year. Grows 10 to 15 inches but can be sheared at any height lower than that. Hardy and thrives in most locations. Should be planted 6 inches apart for a dense hedge.

10 for \$3.95; 25 for \$8.75;
50 for \$14.95; 100 for \$24.95.

Amur River Privet

Bridal Wreath
(Spirea Van Houttei)

AMUR RIVER PRIVET

Extremely Hardy — They
Withstand the Severest Winters

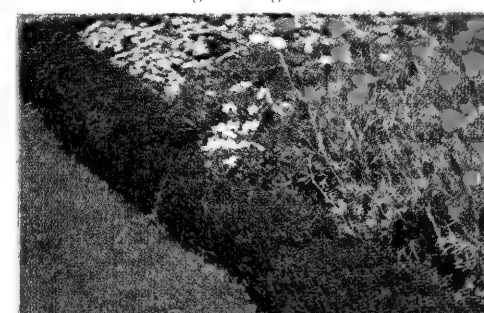

Best for northeastern conditions. Will grow 10 feet in height but may be pruned to any height and sheared to desired form. Branches are upright, foliage oval or oblong; can be made very dense by pruning. Resembles California Privet in growth. Very hardy and almost an evergreen, holding its green leaves almost all winter. Plant 9 to 12 inches apart.

	25	50	100

Barberry Thunbergi
Keeps Out Animals

Midget Hedge, Teucrium

New Robin Hood Rose Hedge

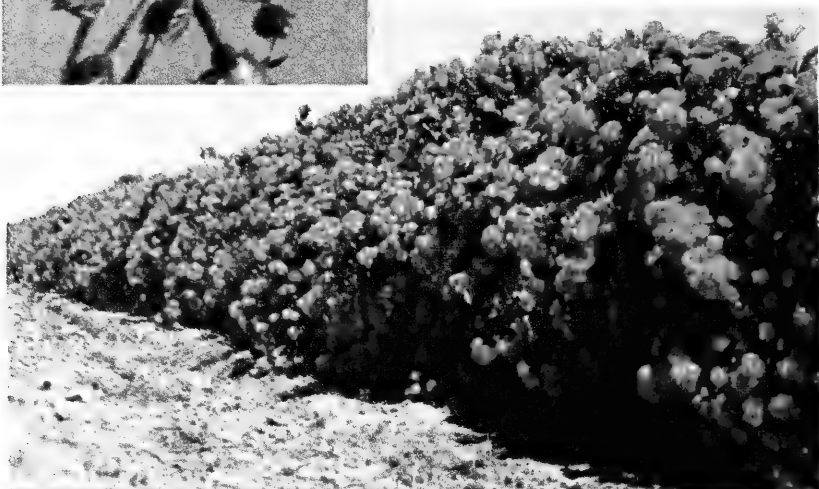

Better, Dense Protective Hedge

Hybrid Musk Rose—Originated by Pemberton 1927

A perfect hedge Rose: its habit of growth is densely compact and it produces an abundance of healthy, deep green foliage. Like all Hybrid Musk Roses it is strongly resistant

to the common Rose ailments. The smothering wealth of flowers which are cherry-red are produced in clusters early in the season and again sparingly during the summer and autumn. This past winter the hedge illustrated, which is a row of 3-year-old test plants, went through temperatures of several degrees below zero without injuries. We believe that in Robin Hood we have the hedge Rose we have been looking for. It will certainly give more satisfaction to the small property owners than the overrated Multiflora Rose. It is not particular as to soil, can be cut to any desired height over 3 ft. Can be planted 12 to 18 inches apart, depending on how thick you want the hedge.

MINIATURE ROSES Plants Grow 6"-12" Tall

Every Child Should Have a Garden of These Dwarf Roses

These fascinating little plants are true Roses, with tiny thorns, foliage, buds and blooms that are exact mimics of the finest big exhibition Roses. But the full-grown plants of these Miniature Roses are only 6 to 12 inches tall, and the biggest blooms are only about an inch across. They start blooming in May and keep right on all summer. All they ask is good soil, good drainage, a fairly sunny spot and reasonable care. They thrive in the garden, and are as hardy as the big Roses.

★**RED IMP.** (Pat. 1032.) This new Miniature Rose is a deep, rich crimson that is startling in its brightness. It is an unfading, even color with no light markings. Fully, solidly double, with 45 to 60 petals packed tightly right to the center. Opens very flat. The beautiful buds and blooms are as perfectly formed as the best of the big Roses. \$1.25 each; 3 for \$3.30, postpaid.

Red Imp

★**PIXIE.** (Pat. 408.) World's tiniest, fully double white Rose, 40 or more petals arranged into perfectly formed flowers only 3/4 inch across. Buds sometimes have a pinkish tinge, which is carried over into the flowers during the cool season and may last until they have fully expanded. At other times will be pure white. Very free in bloom. Dainty foliage. Hardy as the big Hybrid Teas, starts blooming earlier in spring, continues until fall. \$1.25 each; 3 for \$3.30, postpaid.

★**BO-PEEP.** (Pat. 976.) Adorable, deep rose-red buds and densely double, arbutus-pink flowers. Very free in bloom, with many buds together in strong, branching flower sprays. One of the tallest. \$1.25 each; 3 for \$3.30, postpaid.

★**OAKINGTON RUBY.** Miniature red buds open to double, 1-inch flowers. Hardy; free flowering. Fine hedge or border plant. One of the best Miniatures. \$1.25 each; 3 for \$3.30, postpaid.

Bo-Peep

Pixie—A Dainty Rose

Oakington Ruby

NEW ROYAL PURPLE SMOKE BUSH

Fast Growing - Hardy - Beautiful

This new dark purple-red leaf Smoke Bush will be the envy of your neighbors. Of the many red strains tested in our nursery, the Royal Purple proves to be the hardiest and most outstanding variety. The Royal Purple keeps its reddish colored foliage from spring to late fall.

In late summer the matured leaves show a mottled edge, which is a light red edge around the dark purple leaf. It draws the attention of everyone and is greatly admired for its brilliant foliage. Feathery plumes in June and just as richly colored as its foliage.

It is adapted for use as a lawn specimen and is especially recommended where the dwarf Japanese Maple does not do well.

The Royal Purple is the only Purple Smoke Bush to receive the Certificate of Merit from the Royal Horticultural Society.

Be the first to have this new plant in your landscape planting.

2 to 3 ft. plants at \$3.95 each; 2 for \$7.50, Postpaid.

Rosa Rugosa—A Fine Shrub With
Lovely Rose-like, Double Flowers

ROSA RUGOSA Flowering Shrub

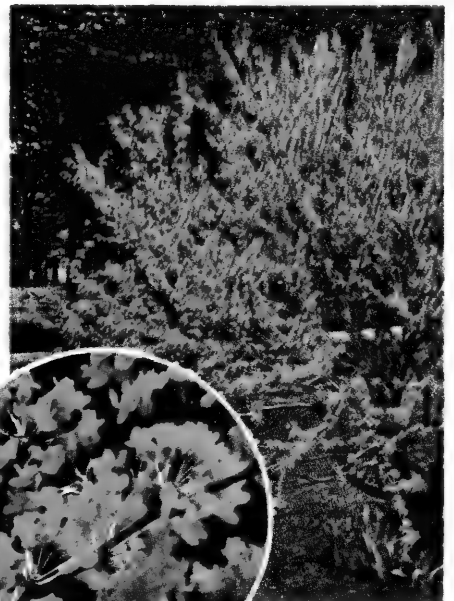

The rich green foliage of this plant, which ultimately grows 4 to 6 feet, is most attractive. Everblooming in its nature, large pink flowers are produced from June until September. It is unique in that the large red fruits are ripening at the same time that the plant is blooming. Very hardy. It is recommended for areas near salt water.

**18-24 in., \$1.50 each; 2 for \$2.75.
12-18 in., \$1.25 each; 2 for \$2.35.**

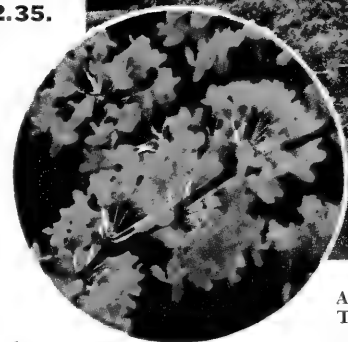

CLIMBING HYDRANGEA (Hydrangea petiolaris) The Choicest of All Vines

This perhaps is the finest and choicest of all the vines. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps. Its foliage is bold, clean and shrub-like, and a rich dark green color. White, fragrant, Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing. Does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west wall or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired.

\$3.00 each; 2 for \$5.75.

Chinese Redbud
A Jewel of a Small
Tree with Extremely
Large Leaves

CHINESE REDBUD *Cercis Chinensis*

This charming, brilliant spring-flowering shrub is a Chinese counterpart of the American native Redbud. It flowers at the same time, but quantity and quality of the flowers far surpass those of our common wild form. It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple-red blossoms almost double the size of the common variety and noticeably darker. You will surely want this in your garden. Ultimate height from 6 to 8 feet.

3-4 ft. trees, \$2.95 each.

Climbing Hydrangea

Evergreens for Beauty

Spreading Pfitzer's Juniper

Purple Spreading Andorra Juniper

SPREADING PFITZER'S JUNIPER

This evergreen naturally grows in a low, wide spreading habit. It will stand considerable shade and crowding, which makes it a favorite for foundation and informal plantings. If kept untrimmed, will spread 4 to 5 feet. Can be kept low to the ground by trimming.

10-15 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.

PURPLE SPREADING ANDORRA JUNIPER

Low and spreading, seldom reaching more than 15 to 18 inches in height, but will spread out for several feet. Particularly desirable because of the gray-green summer color and the pinkish fall and winter color. Especially desirable for planting in groups or as a border to taller trees or for covering banks.

9-12 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.

GLOBE ARBOR-VITAE

A natural globe-shaped evergreen. Has broad fan-shaped leaflets. Dwarf habit of growth, usually not growing over 3 ft. tall or 3 ft. in diameter. Fine for doorway, foundation planting or for formal designs, tubs and urns.

8-10 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.

UPRIGHT JAPANESE YEW (TAXUS CAPITATA)

The normal habit of this Yew is a pyramidal form, broad at the base and tapering to the top of the tree. A rapid growing tree, so can be trimmed back at least twice during the summer.

15-24 in. transplants, \$2.50 each; 2 for \$4.75, postpaid.

HICKS' YEW TAXUS HICKSI

A narrow, upright Taxus with vertical branches. Can be kept trimmed to a desired shape and height. It has rich, dark, glossy green color, making it very popular. Tree resistant to extremes of heat and drought.

12-18 inch, heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.

PYRAMIDAL ARBOR-VITAE

On account of its rapid growth, its bright green color, its shapely even pyramidal habit and ease of trimming, this evergreen ranks among the leading ones for the Eastern United States. Will grow 15 feet tall but seldom over 2 feet in diameter. May be freely cut and trimmed and thereby kept within any bounds necessary.

12-18 in., heavy transplants, \$2.00 each; 2 for \$3.90, postpaid.

SPREADING JAPANESE YEW (TAXUS CUSPIDATA)

This evergreen usually grows more wide than tall. Branches out from the bottom with several stems, developing into a bush form. Rich, dark green foliage with numerous crimson berries in the fall. Does well in sunny and northern exposures. Fine for foundation plantings.

12-18 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.

RED FLOWERING DOGWOOD

● NEW ● DIFFERENT
● OUTSTANDING

A truly red red-flowering Dogwood. The blooms are a beautiful deep red that hold up throughout the blooming period.

In spring and early summer the new growth is a bright red, much deeper than ordinary, reflecting the deeper color of the blooms. Fall coloring is bright scarlet, shading to green, with bright red berries.

One of America's most handsome trees with a special interest for every season of the year.

A strong, clean grower with dominant leader and uniform branching habit.

A NEW PYRAMIDAL
LAWN TREE! ➡

STRATHMORE Flowering Crab

A new type of Flowering Crab tree, which grows in the general shape of a Lombardy Poplar, hence the name "Pyramidal Flowering Crab." Good to use for screening off undesirable sights, as a background on the side or back of a lot, as corner plantings for the home, or for specimen ornamental trees in a small yard. Strathmore grows 10 to 15 feet tall, and can be planted 3 to 5 feet apart for a screen or windbreak. The leaves remain reddish all summer and turn strikingly red and scarlet in autumn. Flowers resemble those of Hopa, but are somewhat darker.

Flowering ALMEY CRAB

Fiery Crimson Blossoms in Early Spring—Scarlet Fruits in Fall and Winter

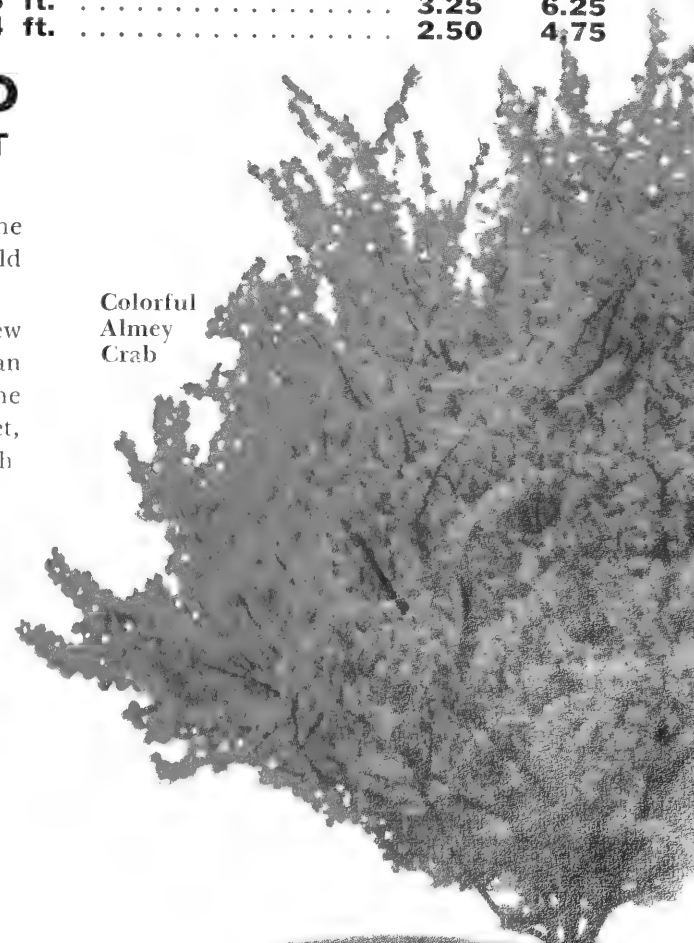

An outstanding Flowering Crab that blooms in the spring. The blossoms are dollar-size flowers of rich glistening, fiery crimson. White markings at base of each petal gives effect of a five-sided star. This lovely tree thrives in poor soil and is perfectly hardy in cold sections.

Almey is not a large tree—about 12 to 15 feet—but it is vigorous and attains its mature height quite rapidly. Another outstanding characteristic of Almey is that it blooms young. It thrives well in full sun or partial shade. Recommended also for small gardens.

The spring show is not all. A graceful tree, Almey also produces in profusion small scarlet fruits that are unique in their habit of clinging tenaciously to the branches long after the leaves have dropped, providing another high spot of color long into the winter.

RIVERS' PURPLE-LEAVED BEECH

One of the most colorful and beautiful of all trees and a mature specimen is one of the most valuable of all sorts. It is easily grown and long-lived. Leaves come out a deep maroon in the spring, turn gradually to a dark maroon-purple in summer, and in fall a rich purple-brown. Shapely in growth, rich in color, it will add that final touch of elegance to your lawn. Be sure to plant this variety as it is known to man to be one of the finest and best trees.

Magnolia Soulangeana

MAGNOLIA SOULANGEANA

Fragrant, huge, Tulip-shaped flowers in early spring, rosy white inside, lively rose color outside. Leathery, deep green, waxy foliage follows the flowers, providing a restful mass of cool green for the summer. Makes an upright rounded tree growing to 12 to 14 feet. A magnificent lawn specimen, doing well in any soil having good drainage.

Kodachrome of Sugar Maple as it Appears in the Fall

CUT LEAF WEeping BIRCH

Graceful, weeping branches, finely cut foliage and shimmering white bark, make this one of the most beautiful trees. Although not particular as to soil, the Cut Leaf Weeping Birch prefers a moist location and a sunny spot. Grows to 35 feet in height.

	Each
5-6 ft., not postpaid	\$4.50
4-5 ft., postpaid	3.50

REDBUD (Judas Tree)

✓ **Very Large Leaves—Graceful and Semi-Weeping**

Live pink flowers cover every twig and branch, producing a breath-taking display early in the spring. Makes a very graceful 20-ft. tree. Large, healthy, heart-shaped leaves add a tropical cast to the landscape picture. A beautiful specimen even in the smallest yard.

3-4 ft.	Each
	\$2.00
	Postpaid

WHITE CLUMP BIRCH

In naturalization or in a lawn specimen, this lovely, multiple-stemmed tree is most effective. The white bark of its 3 or more trunks adds great charm to the landscape picture. Growth is gracefully upright, with horizontal branches. Reaches a height of 35 ft.

	Each	2 for

RED JAPANESE MAPLE

**The Loveliest of All
Small Growing Trees**

Grows no taller than 8 to 10 feet. Leaves a startling crimson all summer. Makes an excellent specimen for side yard or in formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled.

1-1½ ft.	Each
	\$4.95
	Postpaid

See Page 41 for New Strathmore
and Almey Flowering Crabs

TREE HYDRANGEA

Large, pyramidal trusses of pure snow-white blossoms appear in early August. As fall approaches, they change to a luminous pink. At this stage they may be cut for all winter, dry bouquets. Blossoms measure a foot long and 6 to 8 inches wide. A low growing tree, standing not more than 4 to 6 feet in height.

*Garden Splendor
In Fine Trees*

Kelly's FAMOUS NORWAY MAPLE

Best All Around Shade Tree. Recognized as the finest shade tree for generations. Rich indeed is the city whose inhabitants plant Norway Maple as a permanent street tree.

Foliage Dense — Rich in Color

Its dense leaves are a rich green color, and hold on the tree longer in the fall than most Maples, without much change in color. A good tree for street or lawn specimen plantings, where good form and shade are needed. Reaches a height of 30-50 ft. Is resistant to storm, very clean in habit, and the leaves will withstand smoke, soot and attacks from insects.

	Each
8-10 ft.	\$6.50
6- 8 ft.	4.50
4- 5 ft.	3.50

Stately PIN OAK

For an artistic, attractive shade tree, it is one of the fastest growing of the Oak family. The foliage is rich green, deeply cut, glossy copper in late fall. Generally disease and insect free. At maturity stands 30 to 40 ft. Grows in a symmetrical pyramidal form.

Each	
5-6 ft.	\$6.00

LOMBARDY POPLAR

Good for Wind Screens

Tall, fast growing, spire-like tree. Adapted to wide range of soils. Everybody knows the striking appearance of this tall, narrow-growing tree, like a church spire. Ideal for screening, wind-breaks and backgrounds. When used for these purposes, plant 5 to 6 feet apart.

	Each	10	50	100

Sunburst Gold*

LOCUST

A Lovely Lawn Tree of Distinction

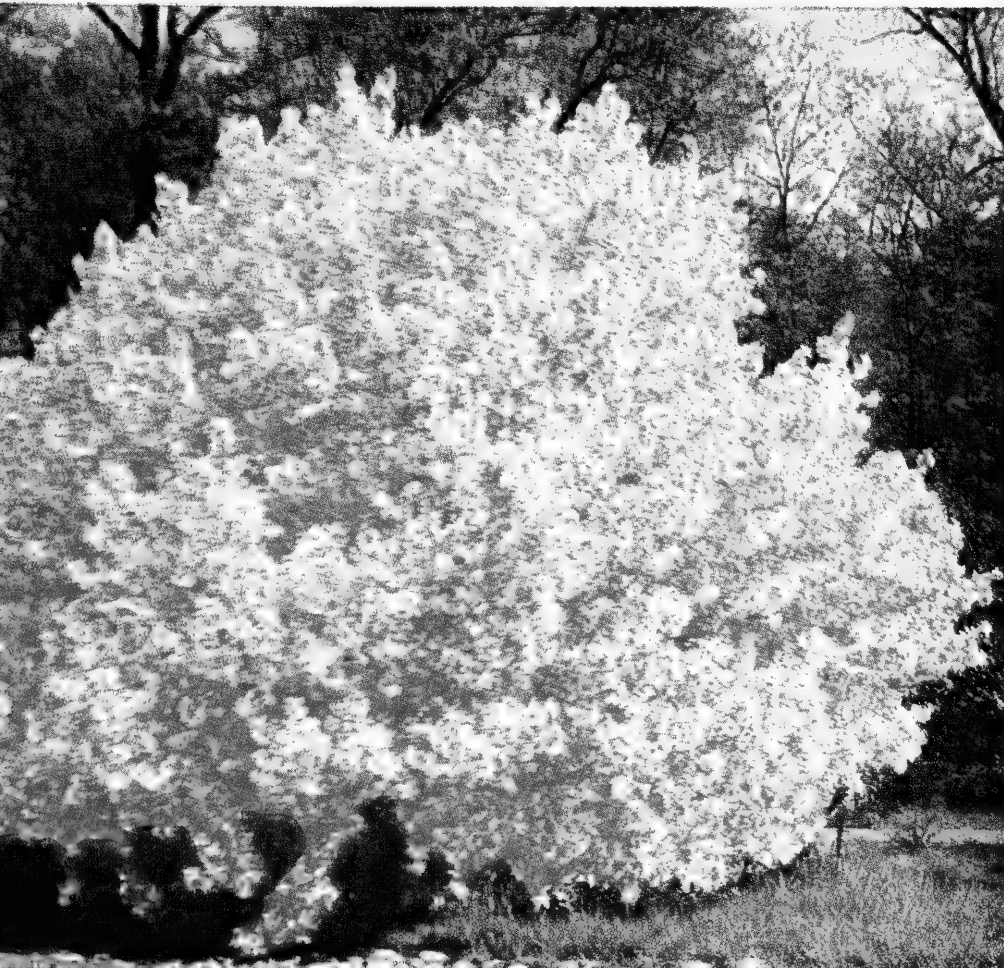

(Gleditsia Triacanthos Inermis Aurea)

***Trade Marked
Plant Patent No. 1313**

Offered for the first time in 1955, this newest of shade trees. Brightest golden bronze foliage of any plant we know. It is even more resistant to insects than common Honey Locust. Tree is well formed, symmetrical and broadly pyramidal with excellent spreading branching habit. Sunburst's brilliant coloring is limited to 8 to 10 inches of branch tips. Here is a colored plant that won't be objectionable in any landscape. Be the first to have this new plant. Supply available this year definitely limited. Grows to a height of 25 to 35 feet.

**Kelly's Famous
Garden Beautiful**

HOPA CRAB

The lovely rosy pink, fragrant blossoms are exquisite—a jewel of the garden—no other tree equals the profusion of bloom. From early spring until freezing weather this tree will be a delight to the eye and nose. It is hard to imagine anything more beautiful. The foliage is dark green with red cast. Flowers are followed by the small red rosy Apples that jewel the tree during the summer, and the small Apples can be used for jellies. The tree is half round in shape, growing to a spread of 15 feet.

Paint Your Garden!

With Kelly's HARDY PERENNIAL

All are prolific bloomers that make a spectacular picture in any garden. Starting small in the spring, they quickly develop into large, bushy plants.

6 of the Best Colors in Our Famous Cushion Mums

After the second year planting, these HARDY MUMS develop into sizes as large as a bushel basket, and each plant is literally covered with many hundreds of lovely flowers which you can buy from us in the six colors listed below.

1. BRONZE GLORYMUM. A lovely deep Rembrandt color.

Planted alone it develops into a large, round flower cushion—plump with hundreds of blossoms. One of the prettiest of the Cushion Mums, yet it requires little care.

2. PINK GLORYMUM. Like a large pink satin cushion.

The oldest of the Cushion Mums—still one of the best. A large plant by early fall, completely covered with beautiful pink blossoms that often cover all the leaves. A lovely sight in early September 'til late fall.

A Sensational Creation of the Flower Kingdom

One of the most popular garden favorites. Plant these beautiful flowers 2 to 2½ feet apart in well drained soil. They do well in full sun or partial shade. Our Cushion Mums are hardy and will bloom from August up to the time of severe frosts.

3. RED GLORYMUM. Dazzling scarlet brushed with a lavish hand.

Each blossom a fiery red color that blends into an over-all mass of brilliant red color. Stunning if used with other Cushion Mums. This plant has been known to have over 500 blooms and some buds on the bush five months after being established. Blooms from September until freezing weather.

4. WHITE GLORYMUM. Lovely alone—complements all other colors.

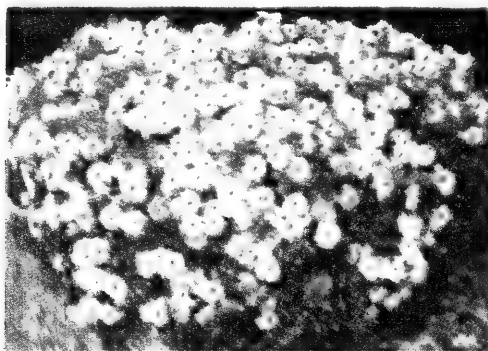

Pure white blooms that blossom freely. Lovely white that enhances all the other colors without losing its own beauty.

5. YELLOW GLORYMUM. The end of the rainbow—the pot of gold!

A brilliant golden yellow that takes an early lead in the "Mum" show. A little care will reward you with a thousand blooms or more at one time. We love this yellow Mum. You will, too.

6. VIOLET GLORYMUM. A new color for beauty.

A brilliant violet color, which you will want to add to your collection of Mums. Covered with beautiful blooms, which you will enjoy.

White Glorymum

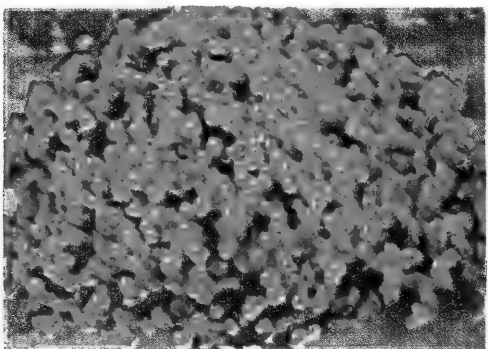

Order by mail—it is an excellent way to buy. You can depend on first class, ready-to-grow plants—fresh from our big nurseries at Dansville, New York. See page 4 for shipping instructions.

LARGE TYPE EXHIBITION CHRYSANTHEMUMS

Hardy Garden Perennials That Bloom Profusely Every Fall Season

Few flowers have the versatility of color that is common to the Chrysanthemum. One of the most popular flowers, used by florists for bouquets and floral arrangements, can be grown right in your own garden. These varieties, grown for us by one of the world's largest and most scientific Chrysanthemum growers, are all perfectly hardy and will begin blooming in your garden in early September and lasting until frost. The varieties were carefully selected for their beautiful colors, complete hardiness, and the time of blooming to insure your complete satisfaction. These beautiful flowers grow to a height of 18-24 inches, and are excellent for cutting purposes. They bloom profusely in the late summer and fall, and add a world of color to landscape plantings.

FLAMBOYANT. Reddish bronze, double. Strong grower.

GARDENIA. Double white; strong grower; abundance of flowers.

NORTHERN QUEEN. One of the best pinks for cut-flower purposes.

BRONZE QUEEN. Bronze.

SPELLBINDER. Canary-yellow.

LIPSTICK. The leading red.

RUBY KING. (Patent Applied For.) Answers a crying need—a really topflight dark red Cushion. Ruby King is all that and more, a mound of gleaming ruby-red blossoms in late September. Spreads 15-18 in. Best deep red Cushion to date. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

FLAIR. (Patent Applied For.) A winner of the All-America Mum Award for 1959. Flair is a lively lavender. It won't fade regardless of weather. Flowers are 3½ inches across, very double and perfectly formed. The bush reaches 18 inches in height and has a 30-inch spread. Flower, foliage and plant are top-notch. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

EMPEROR. (Plant Patent No. 1733.) A blaze of golden light for weeks. Delightful bronzy orange buds swell into rich yellow, ripening to fine lemon-yellow. Very double 3-inch flowers. Plant 2 ft. tall covered with sunshine-yellow blossoms from late September on. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

GIRL FRIEND. A most gorgeous early pink Mum—an All-America Winner for 1959. Has stems 28 inches long, which are loaded with solid, very double 3½-inch blossoms. Superb to cut, and striking in border plantings. Splendid from September 15th on. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

SHOWPIECE. (Patent Applied For.) A superb plant, loaded with massive, lovely, 4-inch flowers of sparkling royal rose. Wonderful sprays, gorgeous individual blooms to arrange for long lasting bouquets. Strong, 2 to 2½ ft. stems, lush foliage. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

CRIMSON LADY. (Patent Applied For.) This "Lady-in-Red" is brilliantly attractive and unforgettable. Crimson Lady has very double flowers, each a good 2¾ inches across. The color is a deep, rich red. You will enjoy the many cut bouquets you will be able to take into the house. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

BURNING BRONZE. (Patent Applied For.) An emblem of autumn—a tangy, spirited splash of fall at its finest. Blossoms open as exciting mahogany-bronze over a lively scarlet base. Soon a tingling medley of tangerine, bronze and orange blazes forth with lovely cutting sprays. Sept. 25. **\$1.50 each; 3 for \$3.75; 3 or more \$1.25 each. Postpaid.**

LILIES

3 Best Garden Varieties

**Kelly's Easy To Grow
Gorgeous Colored Lilies**

REGAL LILY

Gorgeous, large white flowers. Centers are flushed with yellow, shading to a warm brown on the ribs. The almost transparent petals have a delightful pearly tint. One of the hardiest Lilies in cultivation. The Regal Lily, when rightly established, will produce from 15 to 20 flowers each year on stems growing to a height of 4 to 5 feet.

2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.

NEW FIRE KING LILY

The most beautiful true fiery red Lily we have ever seen. A tremendous number of large out-facing blooms flecked with black dots open over a period of 3 weeks during June and July. Fire King in bloom is beautiful and showy even over a long distance. Plants with somewhat flattened wiry stems grow 3 to 4 feet. An outstanding 60-80 blooms per stem is not uncommon on established plants. This strain was discovered by a Dutch gardener who noticed the new Lily in his bulb beds and named it Fire King to describe the unusual color.

\$1.25 each; 2 for \$2.25, postpaid.

AMERICAN WONDER LEMON

A New House Plant You'll Surely Want

Covered with waxy white flowers. Several times each year, this attractive **HOUSE PLANT** will produce Lemons, sometimes weighing as much as a pound. Known as Ponderosa Lemon, this plant is different than any you have ever grown.

2-yr. fruiting size, \$1.65 each; 2 for \$3.00, postpaid.

GARDENIA

The thick glossy foliage surrounding the creamy white blossoms of the familiar Gardenia make this dwarf shrub a prize addition to your terrace or sun room. Grow it in pots and enjoy its exotic beauty all year, inside or out. Unequaled for its rich perfume. Very strong plants.

2-yr. flowering size, \$1.25 each; 2 for \$2.25, postpaid.

Regal Lily

New Fire King Lily

A TRUE PINK LILY

Truly beautiful, delicate but perfectly hardy. Heads of 10 or more delicately fragrant, rose-pink blooms are daintily dotted with crimson, supported on 3- to 4-foot stems. Excellent in the garden—for bouquets and corsages. Blooms in August.

2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.

American Wonder Lemon

Dwarf Tangerine

DWARF TANGERINE

This is a real Tangerine, only a dwarf variety that you can grow as a potted plant just as easily as any house plant. Bears a brilliant orange colored fruit that is good to eat. Beautiful green, glossy leaves. Blossoms have fragrance of orange blossoms. Fun to grow.

\$1.25 each; 2 for \$2.25, postpaid.

DICENTRA HYBRID, BOUNTIFUL

(U. S. Plant Patent No. 1198)

The New Perpetual Flowering Bleeding Heart

A remarkable hybrid, resembling the Plumy Bleeding Heart (*Dicentra eximia*) but vastly superior. Forms a clump fully 18 inches in diameter of handsome dark blue-green foliage, about 10 inches high. Flowers appear in May with as many as 30 to 40 flower stems on a 2-year plant. Stalks are about 18 to 20 inches tall, topped with fuchsia-red flowers. Blooms in the early autumn as freely as it did in the spring. Grows in either light shade or full sun.

\$1.25 each; 3 for \$3.35, postpaid.

Kelly's Mammoth Hardy Garden

PEONIES

A Staple Perennial You Can Depend On

Once planted they will develop into large plants, blossoming each year with hundreds of blossoms. The gorgeous Peony is one of the outstanding flowers for the garden, and rivals the Rose in popularity. Being extremely hardy, it grows and thrives in any part of the country, requiring the least care, and is free from pests and diseases. There are very few perennials as permanent and dependable as the Peony. The following prices are for strong 3 to 5-eye plants, which will give you pleasing results.

\$1.15 each; 3 for \$2.95; 6 for \$5.40, postpaid.

FELIX CROUSSE. The best red for gardens. Bright ruby-red color.

EDULIS SUPERBA. Dark rose-pink.

Kelly Climbing Roses

Blaze

1959 ALL-AMERICA ROSE WINNERS

IVORY FASHION (Floribunda Rose). (Plant Pat. No. 1688). The buds are ideal in shape—they open slowly with a slight touch of yellow while opening. The blooms are 4 inches across when open, and carry a strong, Tea Rose fragrance. The foliage is dark green. Plant grows about 30 inches high. Ideal for exhibitors and flower arrangers.
\$2.75 each; 3 or more, \$2.40 each, postpaid.

STARFIRE. (Patent Applied For.) This new Rose is an unusual currant-red color—will never fade. It blossoms abundantly. Flowers occur singly on long cutting stems, or in clusters, and are long lasting when cut. Its inner petals curve up over the flower center, instead of folding down flat.
\$3.50 each; 3 or more, \$3.10 each, postpaid.

Gold Cup

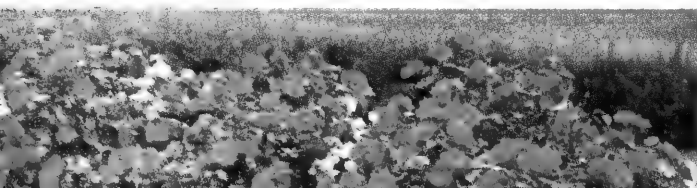

FLORIBUNDAS

ALL FLORIBUNDA, BUSH TYPE ROSES TOP NOTCH PRIZE WINNERS

FUSILIER. (Plant Pat. No. 1709.) A flaming orange-scarlet. The plant is upright and full, 30 to 36 in. tall, with large, leathery, lustrous, dark green foliage. Dark red buds slowly open to orange-scarlet in warm weather, with dark overtones and an underlying incandescence when the weather is cool. Flowers have up to 40 petals, margins frilled and ruffled. Fragrant, continuous blooming.
\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.

GOLD CUP. (Plant Pat. No. 1683.) New All-America Winner for 1958. A large, deep yellow Floribunda, distinguished for vigor, size, form and productiveness. Pointed buds open up to 3 to 3½ in., non-fading blooms. The 2½ ft. plants are well clothed with glossy dark foliage. Never without flowers. Sweet Rose fragrance. It has been generally successful in all areas.
\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.

Floribunda Planting

GOLD RUSH. At last, a hardy everblooming yellow climbing Rose. Flowers are large, double, high-centered and a rich golden yellow. Produced from late spring until frost. The foliage is glossy ivy-green. Hardy and a vigorous grower.
\$1.50 each; 3 for \$3.90, postpaid.

WHITE DAWN. Hardy, everblooming. Flowers double, snow-white, fragrant and produced constantly from late spring to frost. Just as hardy and dependable as its parent New Dawn.
\$1.50 each; 3 for \$3.90, postpaid.

BLAZE. (Red.) (Plant Pat. No. 10.) Grows in true Pillar form. Blooms early, followed by repeat blooms throughout the summer and fall season. Plants hardy, bright green foliage and sturdy canes. Color is intermediate scarlet and does not fade readily.
\$1.35 each; 3 for \$3.85, postpaid.

CLIMBING CRIMSON GLORY. (Plant Pat. No. 736.) This luxuriant, vigorous, fast-climbing plant is covered with beautifully formed, high-pointed blooms of deep vivid crimson—each on

a sturdy stem. Sweet and refreshing fragrance. Excellent for posts, pillars, fences and walls. In sub-zero areas this climber should be planted in a sheltered location and have some protection against winter injury.

\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.

NEW DAWN. (Pink.) Perfect Hybrid Tea-like blooms all season of apple-blossom-pink, and a delicate appealing old rose fragrance. Superb for use in bouquets and arrangements. Fine long stems.
\$1.35 each; 3 for \$3.85; 6 for \$7.25, postpaid.

CLIMBING PEACE. (Plant Pat. No. 932.) This new climbing sport has the same fine foliage and strong stems and perfectly formed flowers as the ever popular Hybrid Tea. Ovoid bud is deep yellow with the edges of the petals picoteed cerise. Slowly opens to a glorious 5-inch bloom with shades of canary-yellow, pale gold, cream, pearly white and apple blossom.
\$2.50 each; 3 for \$6.50, postpaid.

New Dawn

TREE ROSES

Nothing more elegant—but at ease in informal or formal settings. These Tree Roses are the aristocrats of the garden. Breath-taking loveliness growing on straight, slender stems from 3 to 4 feet high. Blossoms and foliage are a dream of color. Unusual and

beautiful—an eye-catching display used singly or in formal groups of two or more. You have a choice of clear, stained-window-red, delicate frosty pink, bold sunny yellow, or variegated two-tone.

\$5.95 each; 2 for \$11.50, postpaid.

Prize Winning Exhibition Patented Roses of Merit

BLANCHE MALLERIN. (Plant Pat. No. 594.) Surpasses all other white Roses. Its sweet fragrance is a rare thing in white varieties. Plant is vigorous.
\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

CHARLOTTE ARMSTRONG. (Plant Pat. No. 455.) Blood-red buds, cerise flowers on long stems. Lasts well in the garden.
\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

FORTY-NINER. (Plant Pat. No. 792.) Probably the brightest colored Rose ever introduced. Long-pointed buds. Inside of petal vivid red, outside chrome-yellow. Fragrant.

\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

GRAND'MERE JENNY. (Plant Pat. No. 1148.) The pastel Rose, pink, peach and yellow. Grows upright to medium height. An abundant bloomer.

\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

HELEN TRAUBEL. (Plant Pat. No. 1028.) 4 to 5 inch blooms of light sparkling pink or luminous apricot. Alive with blooms all season.

\$2.75 each; 3 for \$7.20; 12 for \$28.80, postpaid.

LOVE SONG. (Plant Pat. No. 1360.) American bred offspring of the famous "Peace", which it resembles in form and size. Radiant salmon-pink.

\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.

LOWELL THOMAS. (Plant Pat. No. 595.) Surely the deepest, richest yellow Rose. Holds its color the life of the bloom.

\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

MIRANDY. (Plant Pat. No. 632.) Rich maroon-red. Blooms large, very double. Very fragrant. You will be sure to like it.

\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.

MOJAVE. (Plant Pat. No. 1176.) Lovely apricot-orange color. Long slender buds, borne singly on a long stem.

\$2.75 each; 3 for \$7.20; 12 for \$28.80, postpaid.

ROSA MULTIFLORA THE LIVING FENCE

**Controls Erosion • Provides Wild Life Refuge
Adds Beauty to the Landscape**

Facts About Rosa Multiflora and Its Growth

1. Can be planted 1 foot apart. Its thorns will keep children and animals of all kinds in bounds.
2. Produces dense growth—white blossoms in June—red berries in late summer and fall.
3. Extremely hardy—does well in most all soils.
4. Extensive pruning during the growing season required to keep the hedge small.
5. Grows 8 feet or more in height and 6 to 8 feet in width if not kept trimmed.
6. The red berries will attract birds of all kinds, including pheasants and grouse.
7. Grows 2 to 3 feet in one season.
8. Ideal as a ground cover on steep banks and slopes.
9. Plant just as you would any other shrub.
10. Requires no special care. Not subject to any serious disease or insect attacks.

For a good thick hedge, the plants should be trimmed back to 6 or 8 inches to promote thick growth. You can, therefore, see there is no advantage in planting larger size plants than we offer.

CREEPING GROUND COVER PLANTS - They creep and climb

HALL'S HONEYSUCKLE VINE

White and gold trumpet flowers are very fragrant and remain during the entire summer. Attracts bees and humming birds. The foliage remains green in winter with some protection. Excellent cover for steep banks. Will climb on trellis or tree. Fruit is yellow; very showy in winter against green leaves. Often grows to a length of 10 to 15 feet. Plant about 3 ft. apart in staggered rows for ground cover.

Hall's
Honeysuckle

VINCA MINOR (Periwinkle)

A trailing evergreen plant, used for carpeting the ground under shrubs or trees or on graves, or where it is too shady for grass or other plants. One of the best ground covers. Glossy foliage stays green summer and winter. Has a profusion of bright blue flowers in early summer. Excellent for edging and borders. Add to its beauty by interplanting of Daffodils or other bulbs which do well planted in this manner. Plants should be set four inches apart.

PACHYSANDRA TERMINALIS

(Japanese Spurge)

EVERGREEN GROUND COVER

The most popular of evergreen ground covers. It spreads rapidly, giving a finished look to an underplanting. Since it thrives in the shade, it is especially useful under dense shade trees where grass will not survive. Also good for steep bank where mowing is difficult. Very useful as a combined ground cover and root protector when planted under Rhododendrons, Azaleas, and Laurels. Pachysandra puts the finishing touch to a foundation planting. Plant four or more to one square foot.

Kelly's Present New All-America Gladiolus Prize-Winning Patented Exhibition

APPLEBLOSSOM. Of utmost delicacy of coloring, being snowy white with a touch of cream in the throat and an exquisite flush of cool rose-pink at the edge of the petals. A vigorous grower, up to 5-foot spikes.

CARIBBEAN. Opens 9 to 11 florets at one time with rare blue-violet petals with a rich, deep violet throat and small cream spear. It is the first distinctly ruffled blue-violet Gladiolus.

EMPEROR. A winning 1959 selection. A true aristocrat. Majestic spikes. Grows 5 feet tall. Color a regal purple trimmed in ermine white.

JOYOUS—A 1959 Patented Introduction. Rich, velvety, deep rose. A splendid new variety full of nice, large ruffled florets, brilliantly colored.

MAYTIME. An ideal flower for cutting or exhibition. Has gracefully ruffled, deep pure pink florets with contrasting white throats. A robust grower, opening 8 to 10 florets on spikes 5½ feet tall.

ROYAL STEWART. The lightly ruffled florets are five inches in diameter. They are a clear light red and the long flower heads frequently carry up to 12 flowers at one time. Growth vigorous and healthy, total height of plants running about 5 feet.

SPARKLER. As graceful as a butterfly and just as colorful. This new variety is a gay, happy combination of yellow and red. Not garish, but a skillful blending of clear yellow shading somewhat deeper as it surrounds the bright red lips. Sparkler is ideal for home use and very eye-catching in the landscape picture.

Magnificent Tuberous Rooted BEGONIAS

Most Beautiful in Partial Sun and Shady Places

These selected imported Belgium Begonias are supplied in a range of many colors. Camellia-like blooms from early summer till frost; they are not only a fine outdoor plant, but do equally as well indoors.

This thrilling development of the lovely Begonia is unusual in color and shape. The Camellia type varieties look similar to a Rose—are low growing with large waxy flowers. They grow from bulbs.

We offer them in eight colors: Crimson, Scarlet, Pink, Orange, White, Yellow, Copper, Salmon. Recommended for northern exposures.

Use Our "Easy to Subscribe" Magazine Service

As a special service to our customers, we have enclosed an order blank in this catalog which makes it easy for you to order FLOWER GROWER, THE HOME GARDEN MAGAZINE, FARM JOURNAL, AMERICAN POULTRY JOURNAL, and other magazines at lowest prices. This coupon will save you time, trouble and expense, and assure you of safe prompt service.

Merely check on the coupon the magazines you want, and mail it to the address given on coupon, together with check, money order, or cash covering the subscription prices of the magazines you order for yourself, your family and friends.

Something New HANGING BASKET BEGONIAS

Their beauty is breath-taking. Flowers are double, Camellia-shaped and six times larger than old-fashioned types.

You can use them in flower boxes, pots or hanging baskets, and you will have living fountains of fabulous flowers all summer long. You will need to place them in sheltered places, away from direct sun and strong wind. They turn barren nooks into gorgeous displays of beauty. You would have a show place on your patio, porch or in your garden. They will hang down like a lavish, blossoming fountain.

Very easy to grow. Bulbs should be planted indoors before March to insure longest possible blooming season. In a few short weeks, you will be rewarded with phenomenal flowers—a hundred or more dazzling blooms—a spectacular showing, you and your friends never saw before.

Our bulbs will measure 1½ to 2 inches or more, and we have the following colors to offer. We are sure you will be pleased with them, and with the wonderful display of clear colors.

PHONES DANSVILLE 764-765

Dansville, N.Y.
1959 Our 79th Year

Dear Gardener:

Here is your copy of Kelly Brothers new 1959 Catalog in full Color. From cover to cover you will find hundreds of exciting trees and flowering shrubs -- all of them GUARANTEED -- including many new plants like:

COLLETTE PEAR (Plant Patent No. 1401) The New Everbearing Pear, found on Page 36, which is by far the most deliciously flavored Pear on the market today. It blooms at the normal blossoming time, and then keeps on blooming and bearing new fruit most of the Summer. Because it is Everbearing you will want to plant one.

3-IN-1 CHERRY TREES - A 3 Tree Sweet Cherry Orchard, which is ornamental as well as fruitful. Appetizing rich, black and pink cheek yellow Cherries all on one tree. These trees are listed on Page 24 of our Catalog.

5-IN-1 DWARF APPLE TREES found on Page 36, are a horticultural wonder. The trees will never grow higher than you can reach, and you will have five different kinds of Apples growing on the one tree.

NEW ROYAL PURPLE SMOKE BUSH, listed on Page 39, will be the envy of your neighbors. It has been tested in our nursery, and found to be the best red strain, keeping its reddish colored foliage from Spring to late Fall. Has feathery plumes in June. Adapted for use as a lawn specimen.

There are also many other unusual **FRUIT TREES**, **SHRUBS** and **FLOWERING PERENNIALS**, such as Crape Myrtle on Page 16, Fig Trees on Page 24, **ALL AMERICAN CHRYSANTHEMUMS** on Page 50. With plants like these to choose from, it's easy to turn your garden into the most beautiful and fascinating place in your neighborhood -- and for very little money, too.

KELLY BROTHERS' NURSERIES is one of the largest and most respected nurseries in the country. We offer you a complete selection of hardy northern grown stock at **LOW-GROWER-TO-YOU** prices. Our large sales volume -- built during **SEVENTY-NINE YEARS** of service to farmers and gardeners -- allows us to grow vast quantities of trees and other plants. The resultant savings are passed on to you.

As an added incentive to send us your order as early as possible, so that we can give it our best attention, we offer many valuable **FREE GIFT** premiums, for orders received before March 4th. These gifts are described on Page 3 of the Catalog. All you have to do is choose one gift for each five dollars worth of stock you order.

For a \$5.00 order, you can choose one premium;
For a \$10.00 order, two premiums, and so on.
There's no limit to the gifts you can get
and the choice is all yours.

Just think of it -- you can have your choice of gorgeous Roses, personally selected by Mrs. Kelly -- mammoth Peonies -- tall, stately Hydrangeas -- sparkling varieties of large flowering Phlox, beautiful Sweet Honeysuckle -- or pure white Spiraea Van Houttei, long a favorite of professional gardeners -- just for ordering early. Should you like to raise your own fruit, you can choose large, juicy Latham Raspberries, or decorative, delicious Concord Grapes -- **AS A GIFT**.

BUT REMEMBER, these **FREE PREMIUMS** are offered only for **ORDERS RECEIVED BEFORE MARCH 4th**. **BE SURE TO GET YOUR ORDER IN EARLY**.

We are proud to send you this New 1959 Catalog. We know you will be able to select a good many items you have wanted to plant, and we will be glad to receive your order, which will have our very careful attention. We have hundreds of thousands of regular customers, and we feel sure we can please you.

Sincerely,

John W. Kelly
John W. Kelly, Secy. - Treas.

KELLY BROTHERS NURSERIES, INC.

Kelly's Large Flowering HARDY GARDEN PHLOX

Perfectly hardy, easy to grow—they become more beautiful year after year. They grow about 18 to 30 inches tall.

These are all selected, improved varieties, producing larger and better colored flowers from early summer right up until frost time.

AMERICAN BEAUTY. Gorgeous and bright sparkling rose-red, the color of that famous American Beauty Rose.

PROGRESS. Lilac-blue of immense size—this is without doubt the best two-tone blue.

SUNRAY. Lively flame-pink with salmon shades, softened with lilac and white tints at the center, giving the effect of rich salmon color.

SIR JOHN FALSTAFF. Rich, luminous salmon-pink. The giant-flowered Phlox—the most spectacular to date. Florets to $1\frac{3}{4}$ inches across.

STARLIGHT. Rich violet with sharply defined white star in the center of the floret. Always a great favorite.

WORLD PEACE. A new and beautiful white. This is one of the most wanted whites. It glistens. A tall grower that will bloom late in the season.

(See Collection Above)

ILEX CRENATA CONVEXA

A small grower, growing four feet high and three feet across. The leaves are glossy and grow so thick that you cannot see the twigs. It is very hardy and will grow either in alkaline or acid soil, in full sun or shade. For a hedge, plant 1½ feet apart. An evergreen that holds its leaves all winter. This blends well with other evergreens or relieves the bareness of deciduous shrubs when they have no leaves.

Enjoy These Luxurious Shrubs in Your Yard!

Azalea Mollis

From Holland - AZALEA MOLLIS

Their flowers are lovely and add so much to any planting. We have imported these from Holland. Large blossoms, blooming in early spring. Fine bushy plants, about a foot tall. They prefer part shade, and do best in a soil mixed half and half with peat moss. The roots are very close to the surface, so a peat moss mulch should be kept around the plants after setting out. Grows to 3 ft. Keep well watered. We offer them in the following colors:
